"Playing Coach" for ambulance service

A grant from the Ministry of Health has enabled North Shore Ambulance Limited to hire Pat Skula as the new Operational Supervisor. Inservice education will be her responsibility in addition to her supervisory capacity. She describes herself as a "playing coach."

Pat graduated from Queen's University with a Bachelor's Degree in Biology and completed her Ambulance and Emergency Care studies at Centennial College.

She has been with the Thunder Bay Ambulance Service for the past 3½ years. Prior to that she did a number of interesting things including teaching at Lakehead University in the Science Faculty.

Pat is an active member of the Lakehead

Search and Rescue. After having volunteered the use of her dogs in the search for a missing child, she became a dedicated member of the Search and Rescue unit and began training dogs to track.

First Aid was initially simply an interest but as she studied to improve her first aid skills she

Toddlers, Preschoolers, and Mothers

"Mom and Me" is a social and learning experience for both mother and child. A co-operative group of mothers and children get together once a week to play games, sing songs, make crafts and simply interact with one another. Mom and Me provides an opportunity for mothers to discuss their joys and concerns of parenthood.

A teacher organizes

different activities each week and mothers assist in supervising. Preschoolers benefit from a refreshing and stimulating play period.

Toddlers enter Mom and Me as self-centered individuals who have little interaction with the other children. Very quickly, within a few sessions, they progressively participate more in group play. Eventually they are

right in there doing the actions to the songs and games to the best of their ability.

Preschool children learn how to take instructions from a teacher or another adult and this gives the children confidence that they might need to make the sometimes difficult transition to jr. kindergarten.

Mom and Me will continued on page 9
