Tax Grants for Seniors

by JANE E. GREER

Since 1980, the Ontario Government through the Ministry of Revenue has been providing Property and Sales Tax Grants to eligible seniors as an attempt to help these individuals cope with the rising costs of living.

The Property Tax Grant is a grant of up to \$500 per household provided by the Government to help offset the municipal and school taxes paid annually by persons 65 years of age and over who own their own homes. For seniors who rent their accommodation the Property Tax Grant takes the form of a subsidy that equals 20 per cent of the rent paid, up to a maximum level of \$500.

The Sales Tax Grant is a grant of \$50 provided (without application) to seniors to help offset the provincial sales taxes paid annually.

The Ontario Property and Sales Tax Grants are provided to eligible

seniors regardless of the amount of their annual income. However, as the Ontario Government provides a minimum annual accommodation subsidy for residents of nursing homes, homes for the aged, chronic care facilities, charitable institutions, homes for special care or similar institutions, these individuals do not qualify for the Ontario Property Tax Grant.

Applications for the Property Tax Grant are now being mailed to individuals who were either 65 years of age or who become 65 years of age as of July 1984. Individuals who were 65 years of age or older in 1983 will have already received their first instalment of their property tax grant and upon completing this application will receive the balance of the payment up to the maximum of \$500. For those individuals, who turned 65 years of age in 1984
