Chilly Sod Turning Ceremony

A hardy group of health workers, politicians and press braved freezing winds last week to witness official sod-turning for the new Thunder Bay District Health Unit building. Ontario's Chief Medical Officer of Health, Dr. David Korn, representing the Premier and Minister of Health, and Chairman Don Stewart push a goldpainted spade through frozen turf to signal the start of construction at the Balmoral Street site.

Cost-sharing agreements for the \$2.6 million, two-storey structure call for 2/3 funding by the province, and the balance from all municipalities within the Thunder Bay District. M.P.P. Mickey Hennessy and a number of area reeves and mayors were on hand for the field ceremony and wine and cheese gathering which followed at the Valhalla Inn.

In his brief address to the shivering audience, Dr. Korn noted that this construction start coincides with the arrival at the Health Unit of new health promotion staff. The province is committed, he said, to more emphasis on promotion and prevention in our health care system.

Architects and consulting engineers for the 25,000 sq. foot building are Graham, Bacon and Welter. Local contractor Gateway Building and Supply Ltd. has now begun full-scale excavation at the intercity site and plans to have the building ready for occupancy in November, 1985.

ets will be in during the second week of December. The students who ordered a school sweater are asked to contact Mike Barry by December 5th to confirm the price and style of your sweater. The order will be placed with the company at that time. Just as a reminder, the Christmas Dance will be held on December 15th. It is hoped to be a band dance held at the Terrace Bay Campus Gym. The last 1/2 day of school is Friday, Dec. 21st for the morning only.

The new building will be an exciting design centered around a two-storey high, skylit atrium. Heating will be from both electricity and passive solar. Plans for air conditioning had to be indefinitely postponed in a last-minute cost-trimming measure. The Thunder Bay District Health Unit has a staff of almost eighty, and provides public health nursing, immunization, speech and language pathology, nutrition education, health inspection, sexually transmitted disease clinics and other services to residents of the City of Thunder Bay and communities reaching from Manitouwadge to Upsala and stretching north to Hudson Bay. The new building will allow the Unit to bring all of its Thunder Bay offices, clinics and educational areas under one roof.

PC's Meet

The Schreiber Progressive Conservative Association met on Thursday November 29 at the Chimino Club. The main topic of concern was the upcoming Leadership Convention. Those present seem to be leaning toward Larry Grossman as the one to succeed Premier Davis.

Several members will be going to Thunder Bay to hear and meet with the four contenders on Sunday and will report back to the club with their opinions.

Jim Files, our candidate in the next Provincial election gave a run down on the very busy itinerary that his
