

Police Report

Terrace Bay

One missing person was reported and located the following day. There was only one motor vehicle accident reported. Damage totalled less than \$400 and no charges were laid.

Several parking violations resulted in a number of persons receiving tickets for various by-laws. One person was notified of the suspension of his driver's licence and his existing licence

seized. One Break and Enter was investigated and cleared as unfounded. An officer attended to a trespass complaint. The problem was resolved and a person was removed with no charges being laid. Officers handled two domestic disputes and assisted with a possible peace bond.

Two thefts were reported and are still under investigation. A report was received about an Impaired Driver which resulted in a 12 hour suspension of their driver's licence. Another possible impaired driver was escorted home after re-

One Hospital Concept Investigated

In response to an emerging community consensus on the need to more actively pursue the development of a regional hospital centre in Thunder Bay, the District Health Council has re-affirmed its support for a one-hospital model to provide acute care services.

The Health Council completed a study in 1982 which recommended a one-hospital concept as the preferred option for hospital services in the city. Support for the concept has slowly incubated and has been re-focused by the recent debate on medical transportation costs to other health centres in southern parts of the province.

Foster Loucks, the Executive Director of the District Health Council, points to the development of a consolidated one-site regional hospital referral centre as a significant step in enhancing health services in Northwestern Ontario. The presence of a

single well-resourced hospital in Thunder Bay, he added, would allow us to assume greater regional responsibilities for health care which is a goal shared by the Ministry of Health. It would also open the prospect of developing new programs and medical specialties and services, previously referred to Toronto, Winnipeg and Minnesota.

The District Health Council, in conjunction with a recently formed hospital planning group in the city, has initiated steps to determine existing support for the concept. This will include an attitude survey of the public, the development of a master plan, as well as more detailed information on cost and funding sources.

The investigation of a single hospital centre should examine cost efficiencies, a wider range of services, and the prospect of using vacated premises for future long term care

needs, Mr. Loucks stated. A great deal of discussion and detailed planning is still required. The development of the regional hospital centre is seen as a long range plan probably ten years in the making, but the Health Council believes that a start must be made now by setting the goal and charting the direction.

NEED A CHALLENGE?

If you are concerned about local issues and events; like to meet people; have the ability to express yourself on paper and can use a 35mm camera, there is a challenging position available.
