

Your Opinion

We asked around to see if people were planning to attend the Schreiber Winter Carnival.

Steve Webber: "I plan on getting to most of the sports events."

Debbie Birch: "I'm going to try to get to the road hockey tournament."

Brenda Speziale: "I plan on going, if I can get any time off."

A visit with industrial relations

By
KELLEY ANN
CHESLEY

Since I have taken on the job of Editor for the Terrace Bay Schreiber News only recently, I have had many ideas and notions of what my job will actually involve. As we will be providing our readers with pertinent local news, I thought the first thing I should do was familiarize myself with the businesses and people that contribute to the growth, financially, emotionally and spiritually to Terrace Bay and Schreiber. Well you guessed it, what better place to start than with Kimberly-Clark?

We are all familiar with the history of this Mill in our town, we know that Kimberly-Clark provides most area residents with employment, we know that Kimberly-Clark began the development of Terrace Bay, they provided Recreation, and leisure facilities for the employees. They ran the Hospital, the Hotels and pretty well everything else. Well, if I may say so they have done a very good job in providing a clean, comfortable, secure place

for young and old alike.

It is not my job to run down the last 39 years of the Mill in Terrace Bay, or do an extensive profile of the operation (I'd be here for weeks), so I thought a visit to Mr. A.N. Chisholm, Director of Industrial Relations for both the Mill and Woodlands would give me a general rundown.

Mr. Chisholm has been with Kimberly-Clark for 25 years. He was in Terrace Bay in the early days and returned in 1982 to concentrate on Employee Relations, and Incentive. Mr. Chisholm's job is very involved, he is active in labour negotiations, payroll and company policies. He manages job descriptions and evaluations, takes care of all Public Relations, and property owned by Kimberly-Clark of Terrace Bay.

His most important duty of all, I think, is job safety. We discussed safety for some time and Mr. Chisholm assures us he takes a very active role in the Pulp and Papermakers Safety Association, both Canadian and Northwestern Ontario. He at-

tends all conferences this organization holds and does his best to keep abreast on all new ideas, and procedures to maximize safety in the work place. The Kimberly-Clark mill here is one of the safest operating mills in the country, and the logging operation is only second to one in Ontario. Safety is a constant concern and Mr. Chisholm, with his staff of 21, work hard in reminding the employee that safety starts with them, and everyone must work together to ensure personal safety to all.

I asked Mr. Chisholm about the infestation of the budworm in our area, and though we did not have the time to debate the pros and cons, he admits there is a problem that must be closely monitored, and cannot be allowed to continue.

Mr. Chisholm made reference to Nova Scotia and New Brunswick, who lost at least 53 per cent of their growing stock of fir and white spruce to the budworm.

We also talked briefly of the move Kimberly Clark

has made to make land available to the town for purchase. As Mr. Chisholm agrees, Kimberly-Clark has worked hard to maintain standards in this community, and we have reached a

point where more influence and divergence, applied with the same strong standards would be beneficial in tapping all of this community's potential. When asked if Kimberly-Clark had any plans of land

development in the near future, Mr. Chisholm told us to be listening for an announcement coming soon in that regard.

Well, that's about all I have to report on my first visit in many years to the

Mill. I look forward to close communication with Mr. Chisholm and will let you know any information that I receive. I also look forward to engaging in more informative profiles in the future.

Parent Link Presents Dr. Alan Young, Ph.D. Child Psychologist

Parent Link is pleased to be able to present a 1-day workshop by Dr. Alan Young, Ph.D. on the topic "**Growth and Development - Tots to Teens**". Included will be discussions on social, behavioral and physical development of toddlers to teenagers.

Police Report

Police help hospital

Officers attended the Red Dog Inn regarding a complaint of an unwanted person. Problem was resolved and guilty party removed from the premises without further action.

An investigation of a disturbance and property damage at a local motel resulted in two Schreiber residents being charged with mischief under the Criminal Code to appear in Criminal Court April 3, 1985.

Constables assisted the hospital twice this week regarding patient transportation.

Several parking violations resulted in tickets being laid again this past week. It appears there are still a number of citizens

who continue to ignore "No Parking" and "Handicapped Parking" signs.

One motorist having car trouble was assisted by Police.

Assistance was given by our force to the Marathon Police Dept. regarding a fraud investigation.

Police responded to a call regarding a disturbed person entering a private home uninvited. Police attended, escorted person home and subsequent arrangements were made with a doctor concerning treatment.

Police were called to two Domestic Dispute situations this past week. One dispute was settled between the two parties with no further police action. The se-

cond-situation resulted in a Peace Bond being applied for against a person charged with threatening.

A constable was called out during the night regarding a noisy party. The culprit was advised regarding Noise By-Law and requested to turn down music and keep noise down which was complied with no further action.

After receiving numerous complaints regarding door-to-door salesmen, the police investigated and advised the Company involved that they must have a Hawkers and Peddlers' licence and this was acquired from the Town Office the same day.
