

Attention employers

Businesses, municipalities and non-profit groups are encouraged to apply now for funds and create new jobs for students.

Your business is eligible to be subsidized up to \$2.50/hr. or 50 per cent of student wages up to \$100,000. Non-profit groups may be eligible for up to 100 per cent of wages plus some overhead costs.

A priority of the program is to create jobs directly related to a student's course of study. A limited number of work experience positions will also be considered.

Funds will generally be

approved on a first come, first served basis.

Employers interested in applying for S.E.E.D. or other Federal/Provincial

wage subsidy programs should contact E.D.B. at (807) 344-0815 or the Provincial Hotline at 1-800-387-1290.

Reunion

All former residents of the village of Garland, Manitoba and school districts of Gonta, Haig, Riga and Zalcia are invited to a reunion. The homecoming will take place July 5th, 6th and 7th.

For more information contact: Garland Homecoming 85, Attn. N. Slonowsky, Garland, Manitoba, R0L 0W0.

Moose warning

There are still some moose hanging around the highways in this area, so proceed with caution. A Nakina man suffered only minor injuries when he hit two moose, while travelling to Geraldton. As we all well know the roads in our area must always be driven with care.

Snowmobiling and alcohol

Many Northerners have a love affair with the snowmobile. As with operating cars, some people combine alcohol with their snowmobiling. The results of this combination can be tragically injurious and even fatal - and according to some studies the frequency of these results is on the increase.

Studies by people from the Traffic Injury Research Foundation of Canada indicate that, of fatalities amongst operators of different vehicle types, snowmobile operators were more likely to have had blood alcohol levels above .08 per cent (the statutory limit). That is the greatest frequency of blood alcohol levels over .08 per cent was found among fatally injured snowmobile drivers (42 per cent).

Figures from the Ministry of Transportation and Communication indicate that during our last winter season, provincial snowmobile fatalities rose

by more than 100 per cent. In 1982-83 there were 11 snowmobile fatalities in Ontario whereas in 1983-84 there were twenty-four.

Non-fatal snowmobile accidents rose from 316 in 1982-83 to 468 during 1983-84 - an increase of 48 per cent in one year.

In last year's 24 fatalities, 15 drivers had been drinking, ie. their ability was impaired by alcohol. Besides these figures, six snowmobilers died because of drowning. All six had alcohol in their blood!

One doctor (Robert Niven, M.D.) says that when snowmobile operators are admitted to emergency wards "with bad facial lacerations, or concussions, or occasionally end up in the morgue because they were decapitated, I would make a lot of money betting you their accidents were alcohol-related. Almost all

THANK YOU

Dan, Lynn, and Michael Thomas McGrath would like to give our sincere thanks to Dr. Lau and staff of the McCausland Hospital. We could not have been treated any better. We would also like to thank the auxiliary to the McCausland Hospital, Bill and Annette from Flowers "N" Things, Schreiber Foodmart, and the Terrace Bay Catholic Women's League for all the lovely gifts given to us. Thanks to you all again.
