Vol. 20, No. 21

Serving Terrace Bay, Schreiber and Rosport 35¢

New benches at a number of locations in Schreiber to commemorate 100 years.

1985 Budget

The 1985 Budget for the Lake Superior Board of Education has been drawn up and approved by the Board, now waiting for Ministry's approval.

Mr. Gerry Armour, Chairman of the Finance Committee presented his budget Monday night in Marathon with a 1 per cent increase at the elementary level and 3 per cent increase at the high school level across the board. It is up to the local municipalities, Reeves, and Town Clerks to get together now to determine the break down between the communities; Manitouwadge, Marathon, Schreiber, and Terrace Bay. Mr. Armour stated that the addition of the Hemlo tax base will spread the funds needed over five communities as such, instead

of the four previously mentioned. "This does not mean we will have more money to work with", explains Mr. Armour. "What we gain in taxation, we lose in grants. Spreading the tax load means the four communities will get a break, all communities benefit from the Hemlo operation in this regard."

The total budget this year is very close to 9.7 million dollars, 73 per cent of which, pay for salaries of all teachers, maintenance staff, etc., etc. The Board will collect 4.2 million dollars in taxes from the communities, a figure established by the Ministry.

Terrace Bay Council

As the regular Council meeting of the Township of Terrace Bay, April 29th, a letter was received from the Canadian Association of Threatened Single Industry Towns, inviting participation in their first meeting scheduled for

May 27th in Winnipeg. Council resolved that one member of Council be authorized to attend this meeting.

The Ministry of Community and Social Services advised of the procedures regarding appointment of the Child

Welfare Budget Board, and it was resolved that Councillor Ollie Chapman be appointed as Council's voting delegate for the purposes of the election of the District Child Welfare Board.

At the next regular meeting, May 13th, Mr. T.S. Chalmers wrote on behalf of the Golf Club to request Council's assistance to the Club in the form of, use of Town equipment and a reduction in property taxes. It was the consensus of Council that the use of equipment would be given, but tax reduction is not possible.

Mr. D.L. Davey, Principal of Terrace Bay Public School, wrote to Chief Tom Tack to protest the issuance of certain parking tickets. This was referred to the Police Committee.

Council agreed to enter a float in the upcoming Canada Day parade.

The Lunch box mobile catering unit requested exemption from the municipality's licencing fee, which was denied by

It Must Be War!
The biggest war on the North Shore in years will be fought on Monday, May 27th from 7 to 9 p.m.

The artillery will not be bullets, rockets or atomic weapons; not a single punch will be thrown, not a single drop of blood will be shed, the battle ground will be every community on the North

Shore and people will replace weapons. Yes, it is once again time for the Great North Shore Recreation Directors Fun Run Walk, and nowhere will the competition for participants be greater than between the communities of Terrace Bay and Schreiber. Both Recreation Directors have vowed that they will have the most par-

ticipants out. Personal challenges have been publicly issued and it appears by this picture that both Directors mean business. Check with your local Recreation Offices for starting times and the course layout.

Results of the walk will be carried by CFNO starting at 9 p.m. on Monday, May 27th.

Recreation Directors Terry Bryson [L] and Ron Larivee square off now, and again on May 27th at the Fun Run Walk.

Did You Know

It was 100 years ago when the last railroad spike was driven at Jackfish, linking the East line to the West.

Blood Bank opened

The McCausland Hospital in Terrace Bay now have their own Blood Bank which, says Jim Files, Chief Laboratory Technician is a very important step in the completion of laboratory services. This Blood Bank could be life saving, as there will always be a supply of blood ready for use when ever it is needed.

The blood is supplied from the Canadian Red Cross, is checked and labeled before storage in the very special fridge. This fridge is closely monitored through the lab and the nurses take over after hours, watching the screen at the nurses station. Eight pints of blood are kept in the fridge, coming from Winnipeg and leaving

for Thunder Bay within a month. As the blood only lasts for 37 days McCausland Hospital sends whatever is left to Thunder Bay so it can be utilized.

The purchase of this most important fridge was made possible by a significant donation from the Bill Hanley Memorial Fund.

May is Family Unity Month

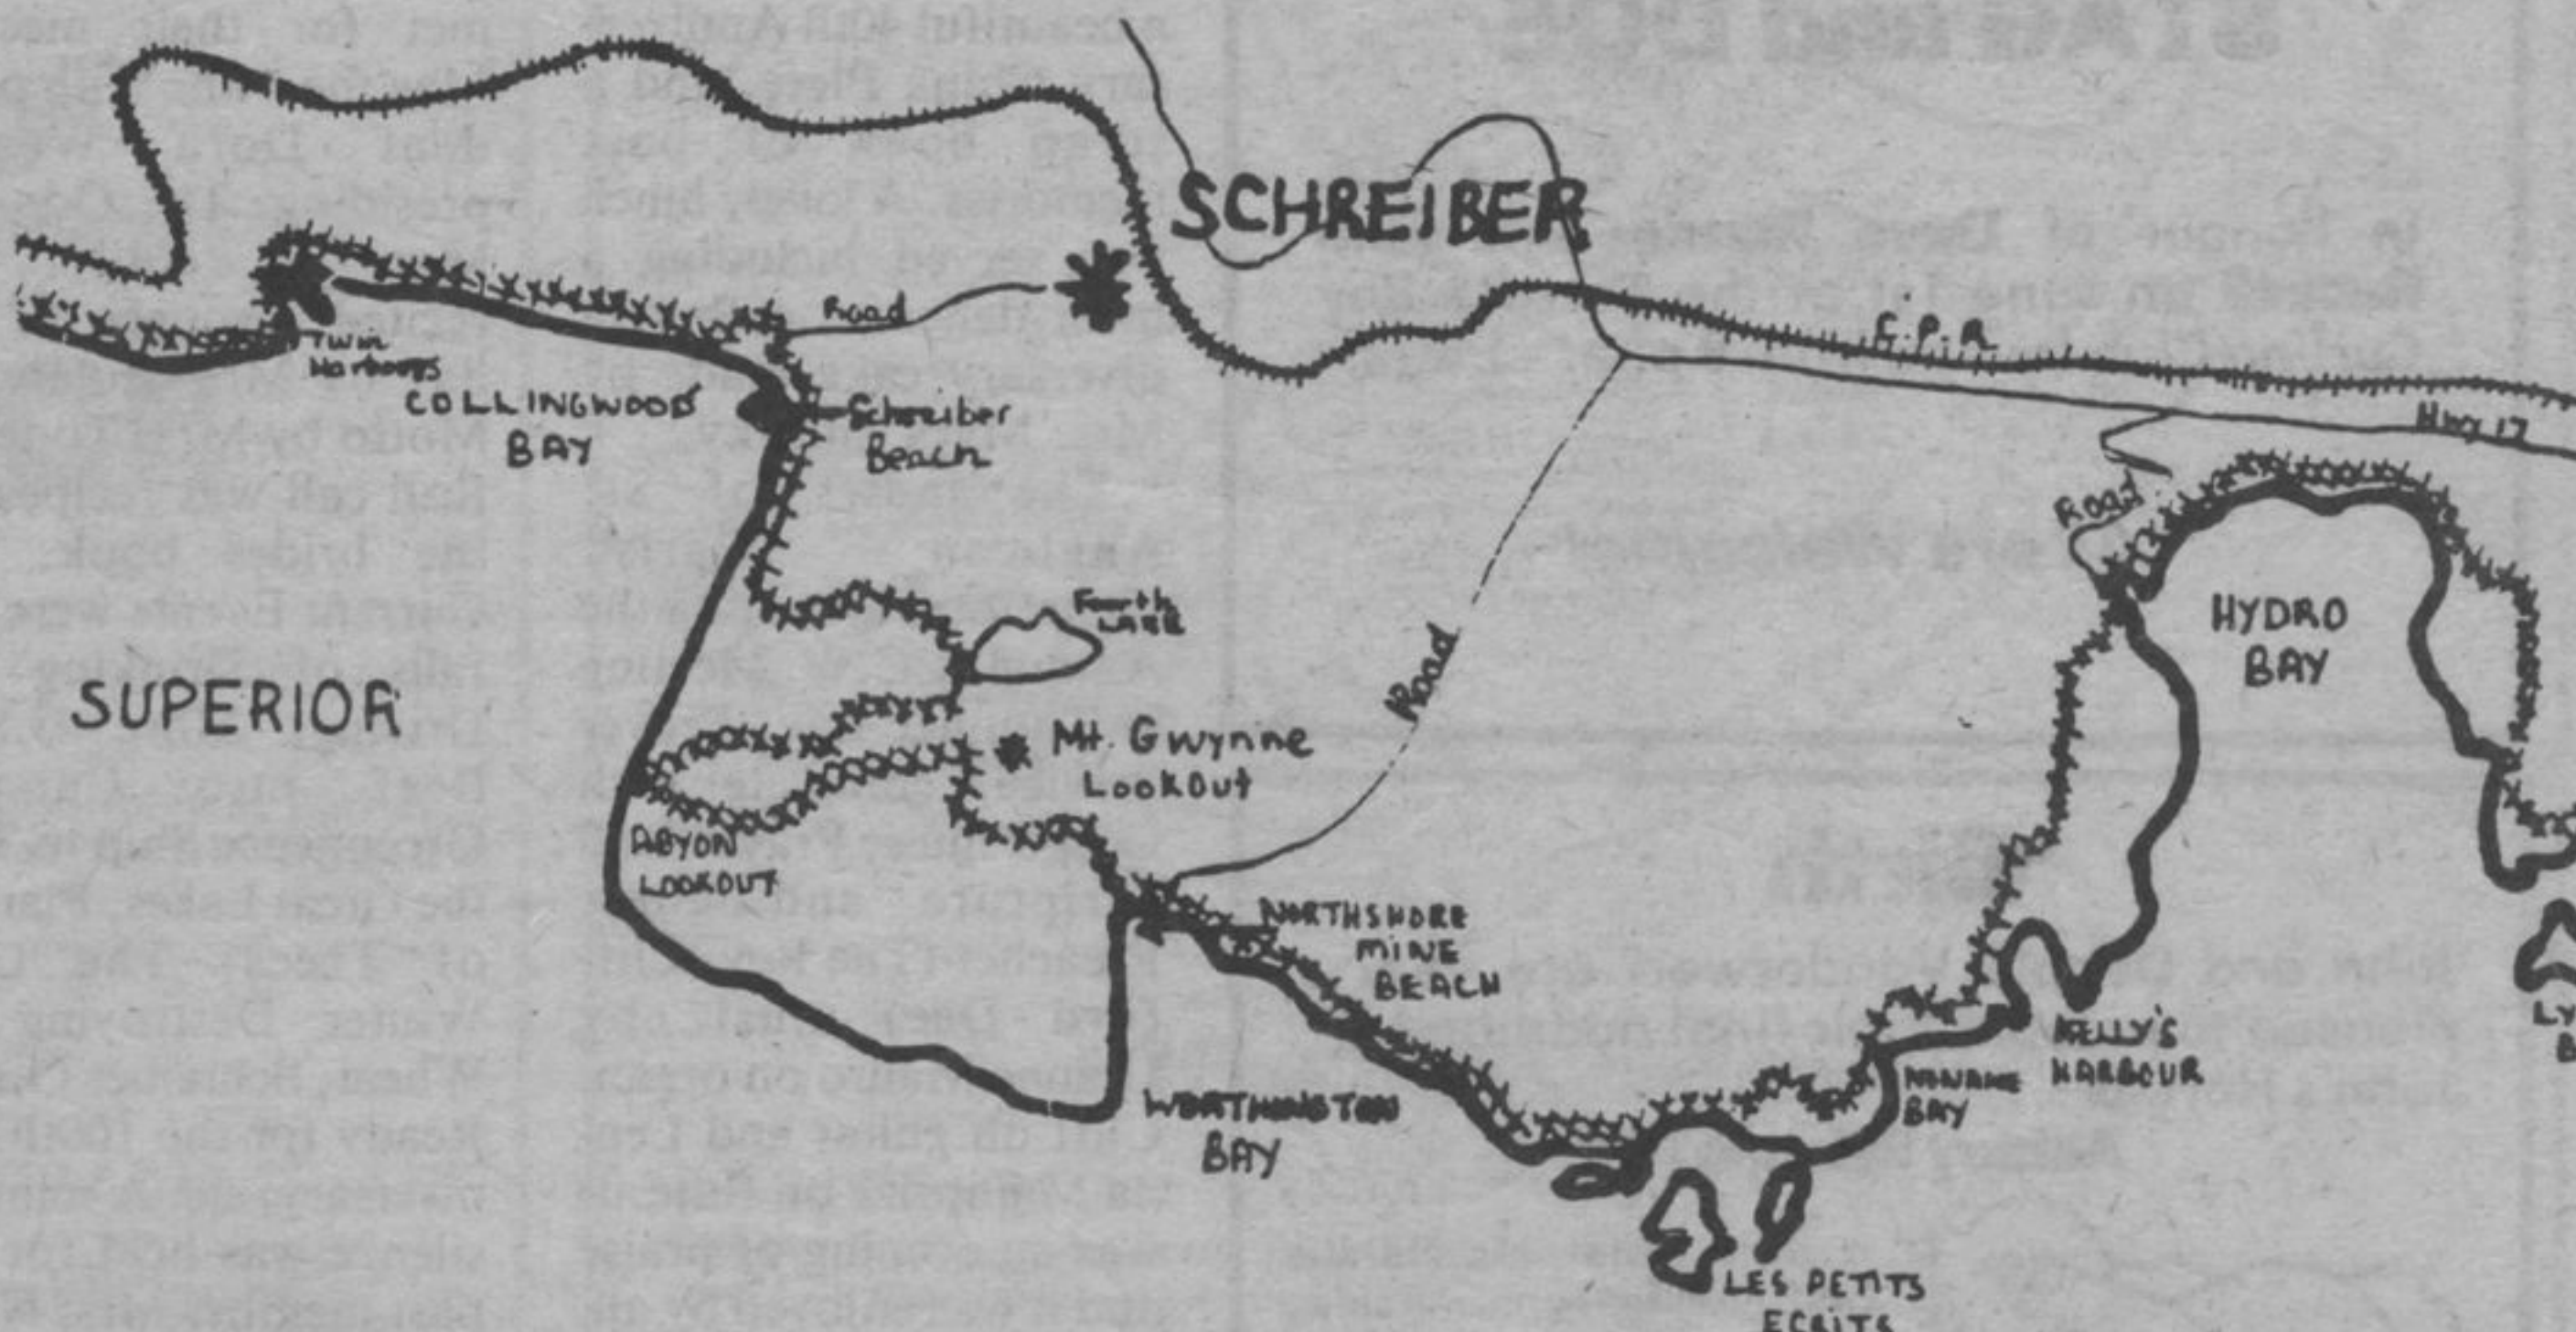

May is Family Unity Month in Ontario, continuing a tradition started in 1975 when Family Unity Month was first officially proclaimed by the Ontario Government. This celebration recognizes the many contributions made by the

family to the quality of life in the province.

The 1985 theme, Once A Year — All Year!, encourages appreciation of the family year-round, not just for one month.

"This special month

presents an opportunity for us all to strengthen family ties and reaffirm our belief in the family as the cornerstone of society," said Gordon H. Dean, Provincial Secretary for Social Development.

Join in the fun and get some exercise on "Go to Blazes" Day, Saturday, May 25. The Casque-Isles trail needs grooming, bring your cameras!!
