

A parting message

There have been some frustrations too. What you think should happen, doesn't always happen - but that's the way our system is supposed to work. In the end I have learned to depend on the good common sense of the people of this Town. If a mistake is made, they will correct it the next time around.

Deciding to move has been a terribly difficult decision to make, but we have decided to take an opportunity that may never occur again. The move to Nicol Island is just what we have always wanted. I have dreamed of coming home from work and jumping into a boat from my own dock and going fishing. We have all kinds of new things we want to do, including enjoying our grandchildren.

What makes this so difficult is the feeling that I'm abandoning all the things I wanted to see accomplished in the next couple of years. The development of the Slate Islands into a Provincial Park offers us a tremendous opportunity to turn our shoreline into a major tourist and marina centre, using Federal and Provincial funds. This is a chance to broaden our economic base that I hope

we don't miss.

What can I say in leaving? If I have learned anything in elected office, it is that in the end the ever changing day to day issues are not so important. What

tions and bitterness aside and make decisions on the basis of what's best for the Township and not for themselves.

I have every faith in the people of Terrace Bay to ensure this will happen.

Thank you Terrace Bay for all of your support and help you have given me over the years.
