THE GOLDENROD
Its wealth of Golden Blossoms makes it
the Merchant Prince of Flowerland

The Easy Way to D'Arny

THE bright showy blossoms catch the eye of the bees so that they do a land-office business in distribution of their pollen. Also the bright blossoms catch the eye of many humans and so it is a common sight to see people gather great arm loads of goldenrod. There are many kinds of goldenrod, but they are so much alike that it is hard to recognize the difference between them.

"KIDS ONLY"

We had no winner for "Kids Only" so we will run the crossword for the summer just for pleasure.
