## L.S.H.S. delegate at P.C. campaign

I am proud to have been elected the female youth delegate for Lake Nipigon riding and to have been given the opportunity to attend the Progressive Conservative leadership convention in Toronto. In the weeks leading up to the convention, I was overwhelmed by my popularity because of the numerous phone calls and stacks of mail that I received every day. But since I did not know what to expect at the convention, and I wanted to represent my riding well, I remained undecided until I was in Toronto. Because Mr. Timbrell did not visit our riding and I did not have as much contact with Mr. Pope as I had with the others, I was leaning towards Mr. Grossman's campaign and finally, I gave my support to Larry Grossman. I am confident that Mr. Grossman is a good leader for our province. He is an extremely intelligent and devoted man, and Larry Grossman will not forget the Northern Ontarians.

I would like to sincerely thank the people who voted for me at the nominations meeting; you have allowed me to partake in an experience that I will never forget. I learned more in those four days than I could

normally learn in twenty-four days. I did not only learn about politics, but about dedication, fellowship, and the ability for people to break down barriers and come together for a single cause. I met so many bright young men and women who are going to be the leaders of the future, and after meeting them, I have real hope for Canada, and you should too!

Without the chance to go to the convention, I probably would not have become involved in politics: I would like to in-

vide others to take the first step too. I especially invite the youth of our region to become interested because involvement can provide new knowledge and create many opportunities. We Northern Ontarians must show interest if we want the politicians to be interested in us. I have heard too often, "I don't like to get involved in politics," but I do not accept that excuse, and I say to those people: try it and you will be amazed at what you can do!
