

Catholic Women's League meets again

By Marylyn Turcotte

The regular June meeting of the Terrace Bay Catholic Women's League was held on Monday, June 9 in the church hall. The meeting was offered for a safe and happy summer and was opened with a decade of the Rosary, the League Prayer and a Scripture reading.

Claire reported that so

far we have 54 members and the door-to-door membership drive will now begin. Anyone wishing to help with the membership drive please call Claire Roen.

Our annual clothing drive for the Red Lake Missions will be held from June 15 to 29 only. All clothes must be clean, packed in boxes, and left in

the church basement or front lobby.

The CWL will also be sponsoring a "Junque" sale in the church hall on Wednesday, June 25 from 6 to 9 in the evening. Anyone wishing to donate "Junque" to our sale, please bring it to the church on Tuesday, June 24 from 7 p.m. to 9 p.m. If pick up is needed, please call Diane

Polesky at 825-3616.

Fern Luke thanked her team for all of their work for the month of May. They did a great job.

Lillian reported on the lovely mass and pot luck supper we had in honour of Mary Dashkewytch. Kathleen reported on the lunch that we shared with Gertie Pinneault. Both of these ladies will be leaving Terrace Bay in the near future. They will be greatly missed by our CWL for their cherished friendship, their

knowledge, and their generosity, and we will continue to keep them in our prayers.

Edna has asked that all pennies for the Holy Childhood Association be turned in to her this week. She asks that people continue to save over the summer and we will begin collecting again in the fall.

The meeting was adjourned and closed with a prayer. The next regular meeting will be held in September.

Letters to the Editor

Dear Editor

As a parent, I want a peaceful world for my children. But because of the nuclear arms race, I know they are facing an uncertain future. What is worse, they know it too, and are afraid. My instinct is to protect them, as is any parent's. Our children shouldn't have to grow up in fear!

That's why the Canadian Centre for Arms Control and Disarmament was established—to help make sure that Canada does all it can to prevent nuclear war. And that's why I'm writing to ask for your support.

We at the Centre think Canada can make a real contribution to global peace, and want you to join us in achieving it. Canada is less bogged down than the superpowers in the ideological rigidity of Cold War thinking. It's easier for us to move beyond outmoded ways of thinking and develop practical new approaches to arms control. Avoiding nuclear war isn't just up to the superpowers. It's all of our survival that's at stake! And our children's future.

Since its formation three years ago as a private, non-partisan organization, the Centre has rapidly become Canada's leading national voice for vigorous Canadian arms control policies. Referring to it as "an independent little research outfit", the Globe and Mail called the Centre, "Ottawa's toughest potential critic".

While we've been forth-

right in our assessments of government policy, we've also been constructive and imaginative. For that reason, our views have regularly been sought by parliamentarians, peace movement activists, journalists, industry, and many ordinary Canadian Citizens. Spar Aerospace, Canada's leading space technology firm, even contacted the Centre to help develop plans for a satellite, called PAXSAT, which would monitor a space-weapons ban.

Please help us in our important work by making a contribution to the Canadian Centre for Arms Control and Disarmament. We need your support to keep the ideas coming and the pressure on for forceful and effective Canadian arms control policies.

Together, we can ensure that Canada pulls its weight in the global search for peace.

1986 has been declared the International Year of Peace by the United Nations. That gives all of us a focus to redouble our commitment to working for a secure, peaceful future for our children.

Be sure your children will know that you did

everything you could to ensure that they and their children have the chance to grow up in a peaceful world.

Funds raised

A total of \$1,241.37 was raised for the Cystic Fibrosis fund by the students and teachers at Holy Angels School in Schreiber last month. Here Grade 7 student Chris Commisso is shown presenting the cheque to Kinsmen Club President Gord Moorey. The Grade 7 class was instrumental in making the fund raising day a success. The biggest fund raiser was a draw for a "ghetto blaster," won by Mrs. Norma Duffy. The total was the most raised by the school for one event. (Photo supplied by Holy Angels School)

Grant awarded

In 1984, the Terrace Bay Canada Day Committee received a \$900 grant from the Secretary of State of Canada, and last year the grant went up to \$3,500. This year Committee member Ollie Chapman was surprised yet delighted to receive \$5,000 from the government for the town's July 1 celebrations.

Chapman, who is also the Reeve of the township, received the \$5,000 cheque and a letter from the Secretary of State Benoit Bouchard earlier this month. She read the letter at the June 9 meeting of Terrace Bay Council.

This is one of the largest grants awarded for Canada Day celebrations in the country, when the size of the town is taken into acc-

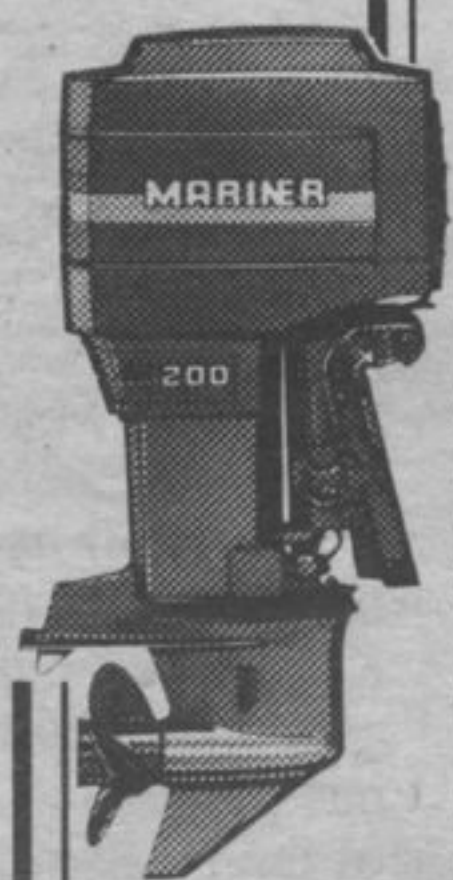

ount, Chapman explained.

"I'm very pleased to get the money," she said. The Committee had almost jokingly applied for a total of \$10,000. "It's nice to have the efforts of the town and the Committee recognized like this."

Bouchard, in his June 2 letter, said "I would like to extend my congratulations for your organization's initiative in planning celebrations for our national holiday."

He added, "To each and everyone of you, my best wishes for a very happy Canada Day."

The full Canada Day weekend schedule appears on page 9 in this week's issue of the Terrace Bay-Schreiber News.

Invest With A Winner

If you're currently a marine dealer or thinking of becoming one, you owe it to yourself to consider the retail opportunities available with Mariner Outboards.

Proven Growth Record: Mariner is a division of the Brunswick Corp., one of the world's foremost manufacturers of recreational products. We didn't sell our first motor in the U.S. until 1976, yet we're already one of the top four brands in a retail marine business that totals over \$8 billion annually.

"Of course the impressive level of growth that Mariner has experienced thus far hasn't happened by accident. It took an aggressive group of marine dealers backed by a Mariner blueprint for growth.

Products That Perform: Mariner Outboards have a reputation for reliability. After you sell them, they don't come back. We offer a complete line of outboard power options from 2 thru 200 horsepower, plus six electric models.

Support Programs That Work: We take care of our dealers. We support them with financial assistance, sales incentives, local co-op and national advertising programs. They're simple, straightforward programs, directed toward bolstering the "bottom line" for Mariner dealers.

Dealers Who Make Money: We understand that profitable dealers are the key to our growth. And we're firmly committed to developing a network of strong, independent dealers who are properly spaced. So they'll compete for sales with other brands, instead of each other.

Opportunity Is Knocking. Are You Listening? Our dealer organization is growing rapidly, but we still need representation in a number of areas. So there may be an opportunity for you to share in our growth and success. To find out, call
