

Seminar held

A seminar for area Fire Chiefs was hosted by the Schreiber Fire Department on Nov. 6. On hand to discuss the new Transport Canada Guide to Initial Emergency Response was Peter

Cox, the Thunder Bay District OPP Dangerous Goods Enforcement Officer. Fire Chiefs from Red Rock, Nipigon, Terrace Bay, Dorion, Longlac, and Thunder Bay area attended the meeting.

Softwood tariff impact

The 15 per cent duty imposed on Canadian softwood lumber exports recently by the American government may cost Northern Ontario residents up to 5,000 jobs, announced Lake Nipigon MPP Gilles Pouliot last week.

Pouliot rose in the Ontario Legislative Assembly late last month during an emergency debate on the issue and said the tariff imposition has dealt "a severe and vital blow to the economic climate in northwestern Ontario."

The profitability of the stud mill in Terrace Bay is now being studied by officials at the Kimberly-Clark pulp mill. Over 60 K-C employees work at the stud mill.

"We were appalled and shocked to

find that our economy, which is already in severe jeopardy...has been dealt an economic blow that will take a long time to recover from, if not a generation to heal," the MPP said.

He added that in his riding, there are 20 to 22 communities which will be victimized by the American duty, including Terrace Bay.

"What is shocking is that the government failed to see the light, failed to do its job," he added in his address. "The government does not seem to care. What we are dealing with is incompetence and negligence of the highest order."

He also blamed the Liberal provincial government for a lack of foresight and planning.

"We have been the victims of the

lack of economic planning for our region and we are paying the price," Pouliot explained. "When the people start being laid off and have no place to go, the government shall be asked to carry the guilt--nothing short of that."

In a New Democratic Party news release, Pouliot suggested that David Peterson, Premier of Ontario, should abandon his support of Prime Minister Brian Mulroney and the federal government and take a firm stand by demanding an immediate end to bilateral free trade negotiations currently underway.

"The duty imposed by the United States...indicates yet another Peterson and Mulroney fumble of the free trade ball," Pouliot added in the release, dated Oct. 29.

Outstanding Achievement Awards

November 30 and December 15 are the nomination deadlines for the 1987 Outstanding Achievement and Volunteer Service Awards, Minister of Citizenship and Culture Lily Munro announced last month.

Outstanding Achievement Awards are given in three different categories: individuals, businesses supporting volunteer organizations, and non-profit organizations.

Nominations can be made by non-

profit organizations in all three categories. A member volunteer can also nominate a non-profit organization for an award in that specific category, but all nominations must be in by the end of the month.

Nominations for Volunteer Service Awards are also now being accepted until Dec. 15, 1986.

"These awards are presented to volunteers who have donated their time and efforts for five, 10, 15 or more years to non-profit organizations whose activities relate to the mandate of the Ministry," Munro explained.

Information and forms for both award programs may be obtained by writing or calling: Volunteer Awards Program, 77 Bloor Street West, Toronto, Ontario, M7A 2R9, (416) 965-7505.

New product from K—C

continued from page 2

"Depend" undergarments, has been phenomenal, Kinsley claimed. He added that the company has received hundreds of letters from Canadians "relieved that someone is finally recognizing this problem and pleased that they can now get help."

The release pointed out that there are an estimated one million Canadians who are disabled by such an incontinence problem.

Kinsley explained that "Depend" is designed to permit people capable of leading active lives to once more

lead a full life. The product is absorbent without being bulky and is therefore virtually invisible when worn under clothes, she added.

To date it has been very frustrating for people to deal with their problem, since specialized products have only been available at a very limited selection of retail stores, she said.

"Depend" undergarments will be sold through all major drug and home health care stores across Canada. A survey indicated that about 85 per cent of sufferers are women.
