

Schreiber receives final payment

Municipal Affairs Minister, Bernard Grandmaitre, announced on Nov. 12 the \$1,815 final payment on a \$12,105 community planning grant for the Township of Schreiber, stated a news release.

Mr. Grandmaitre said the grant

was used by the Township to prepare its first official Plan.

The grants are designed to encourage municipalities to review and update their planning programs, zoning bylaws and other planning documents.

The grants may also be used for special studies on local issues such as lakeshore development or commercial development along highways, and for energy-conserving planning measures.

Kimberly Clark launches

new product

continued from page 6

"Some consumers carry a handful of tissues in a plastic bag for a more streamlined, flexible package. The new soft pack is designed to fill that need," Phillips said.

She noted that in the United

Kingdom, where Kimberly-Clark launched a travel pack more than a year ago, the new product met considerable success.

"We fully expect to enjoy the same kind of consumer acceptance in Canada," she added.

Bits and Bites

By Helene Ballard

Hello Folks! Sure hope you are all enjoying good health. Remember to dress warm when you go out.

I've enjoyed our monthly birthday party on Thursday, Nov. 20. We had only one birthday kid this month- Mr. Felix Legault, 82.

He enjoyed the good wishes of the residents, along with Leon's yummy cake. After lunch we all enjoyed a penny auction. It's fun to see what everybody gets- it helps pass an afternoon.

Our hostesses for the party were "The Ladies of the Moose", and on behalf of the residents I would like to extend our thanks to these ladies for their work on our behalf.

Our weekly bridge players were not able to come this week but will return next week.

Well, I suppose you are starting your Christmas shopping. Well, in all our busy days, let us take time to think of those who have so little and try to send something to them. Remember the old saying, "It's bet-

ter to give than to receive."

Sorry to say folks, but I have a bite this week, so this is it.

To whom it may concern, the street lights have been out now for a month on MacDonald Avenue that can be repaired if the written orders are given so our friends, the Hydro men, can replace the burned out bulbs.

How about it? Thanks.

That will be all for this week-should have more news bits as December gets into full swing. So until next week- Sign on a camper- 'Ignore the dog, beware of the owner' cheerio!

There is a new Ontario law that provides workers with greater protection against toxic agents.

Whether you work in an office, a mine, a factory, or a shop, you could be exposed to hazardous biological or chemical agents without ever knowing it.

On November 6, a new regulation was made by the Ontario Government which will come into effect December 6, 1986. This new regulation provides greater protection to everyone in the workplace in two different ways. First, it sets out specific legal limits on exposures to more than 600 different toxic agents. And second, it requires exposures to toxic agents in the workplace to be reduced by engineering controls, such as improved ventilation, rather than by the use of respirators.

If you'd like a listing of the agents and information about the exposure limits placed on them, visit the Ontario Ministry of Labour Office nearest you.

If you'd like to order a copy of the booklet which contains the regulation and lists the toxic substances and exposure limits, send a cheque or money order for \$1.00, payable to the Treasurer of Ontario, to:
