

Health conference to be held in Marathon

It's your choice

Several workshops focussing on the question of personal choice in women's health issues will soon be presented by the Northwestern Ontario Women's Health Information Network (W.H.I.N.) and Mayday. This mini-conference will take place at the Marathon Recreation

Centre on June 6, 1987, from 10 a.m. to 4 p.m. All are welcome to attend.

Lunch will be provided and childcare and travel subsidies are available.

The recently-held Nipigon mini-conference was met with en-

thusiastic response. 50 women attended the event and evaluated it very positively. They generally found it an enjoyable and valuable experience.

Ontario Research for forestry holding 2-day course

"Wood Fibre Variability- Control for Profit" is a two-day course offered by Ontario Research for forestry, technical and production staff of pulp and paper manufacturers as well as those concerned with economics and forecasting.

The course is being presented in Ottawa, May 25-26 and in Toronto, November 26-27.

By linking both woodlands and mill personnel in a common understanding of how and why variations occur in the properties of wood fibre delivered at the mill, and how these properties are affected by silvicultural, genetic and site conditions. This course shows how increased profitability and product quality can result.

This two-day course is delivered by Adam Sugden, currently at

Sault College, and by Dr. Geza Matolcsy of ORF (Ontario Research for forestry).

Both are well-known in the forest products industry.

A 75-page manual is provided to each participant. Classes are limited to 35 each to allow for ample discussions and interactions.

The course fee, including meals and materials, is \$525 with registration accepted on a first-come-first-served basis. For further information write or call:

Premier writes Pouliot concerning sawmill

continued from page 5

As you may know, Weldwood of Canada Limited is investigating the possibility of acquiring the Longlac sawmill, and I am hopeful the results of this

study will be positive.

yours sincerely,

David Peterson

Premier and Minister of Northern Development and Mines.
