Kimberly-Clark bark pile fire a common occurrence

By Ken Lusk

A bark pile fire on Kimberly-Clark property last Tuesday had fire crews and water bombers working hard to keep it from spreading to the surrounding bush.

According to Director of Industrial Relations at Kimberly-Clark Daryl Payette, the fire started by spontaneous combustion. He said that bark pile fires are not uncommon in mill operations.

He said with a bark pile that

size there is tremendous pressure. The extremely hot weather lately also contributed to the fire. "We always watch (for signs of bark pile fires)," said Payette.

The fire started early on Tuesday, July 28. Fire crews had it controlled by 6 p.m. the same day.

One reason Payette gave for the fire not spreading was the fact that there were no high winds.

The K-C Fire Department, the township Fire Department and a K-C water-dropping helicopter

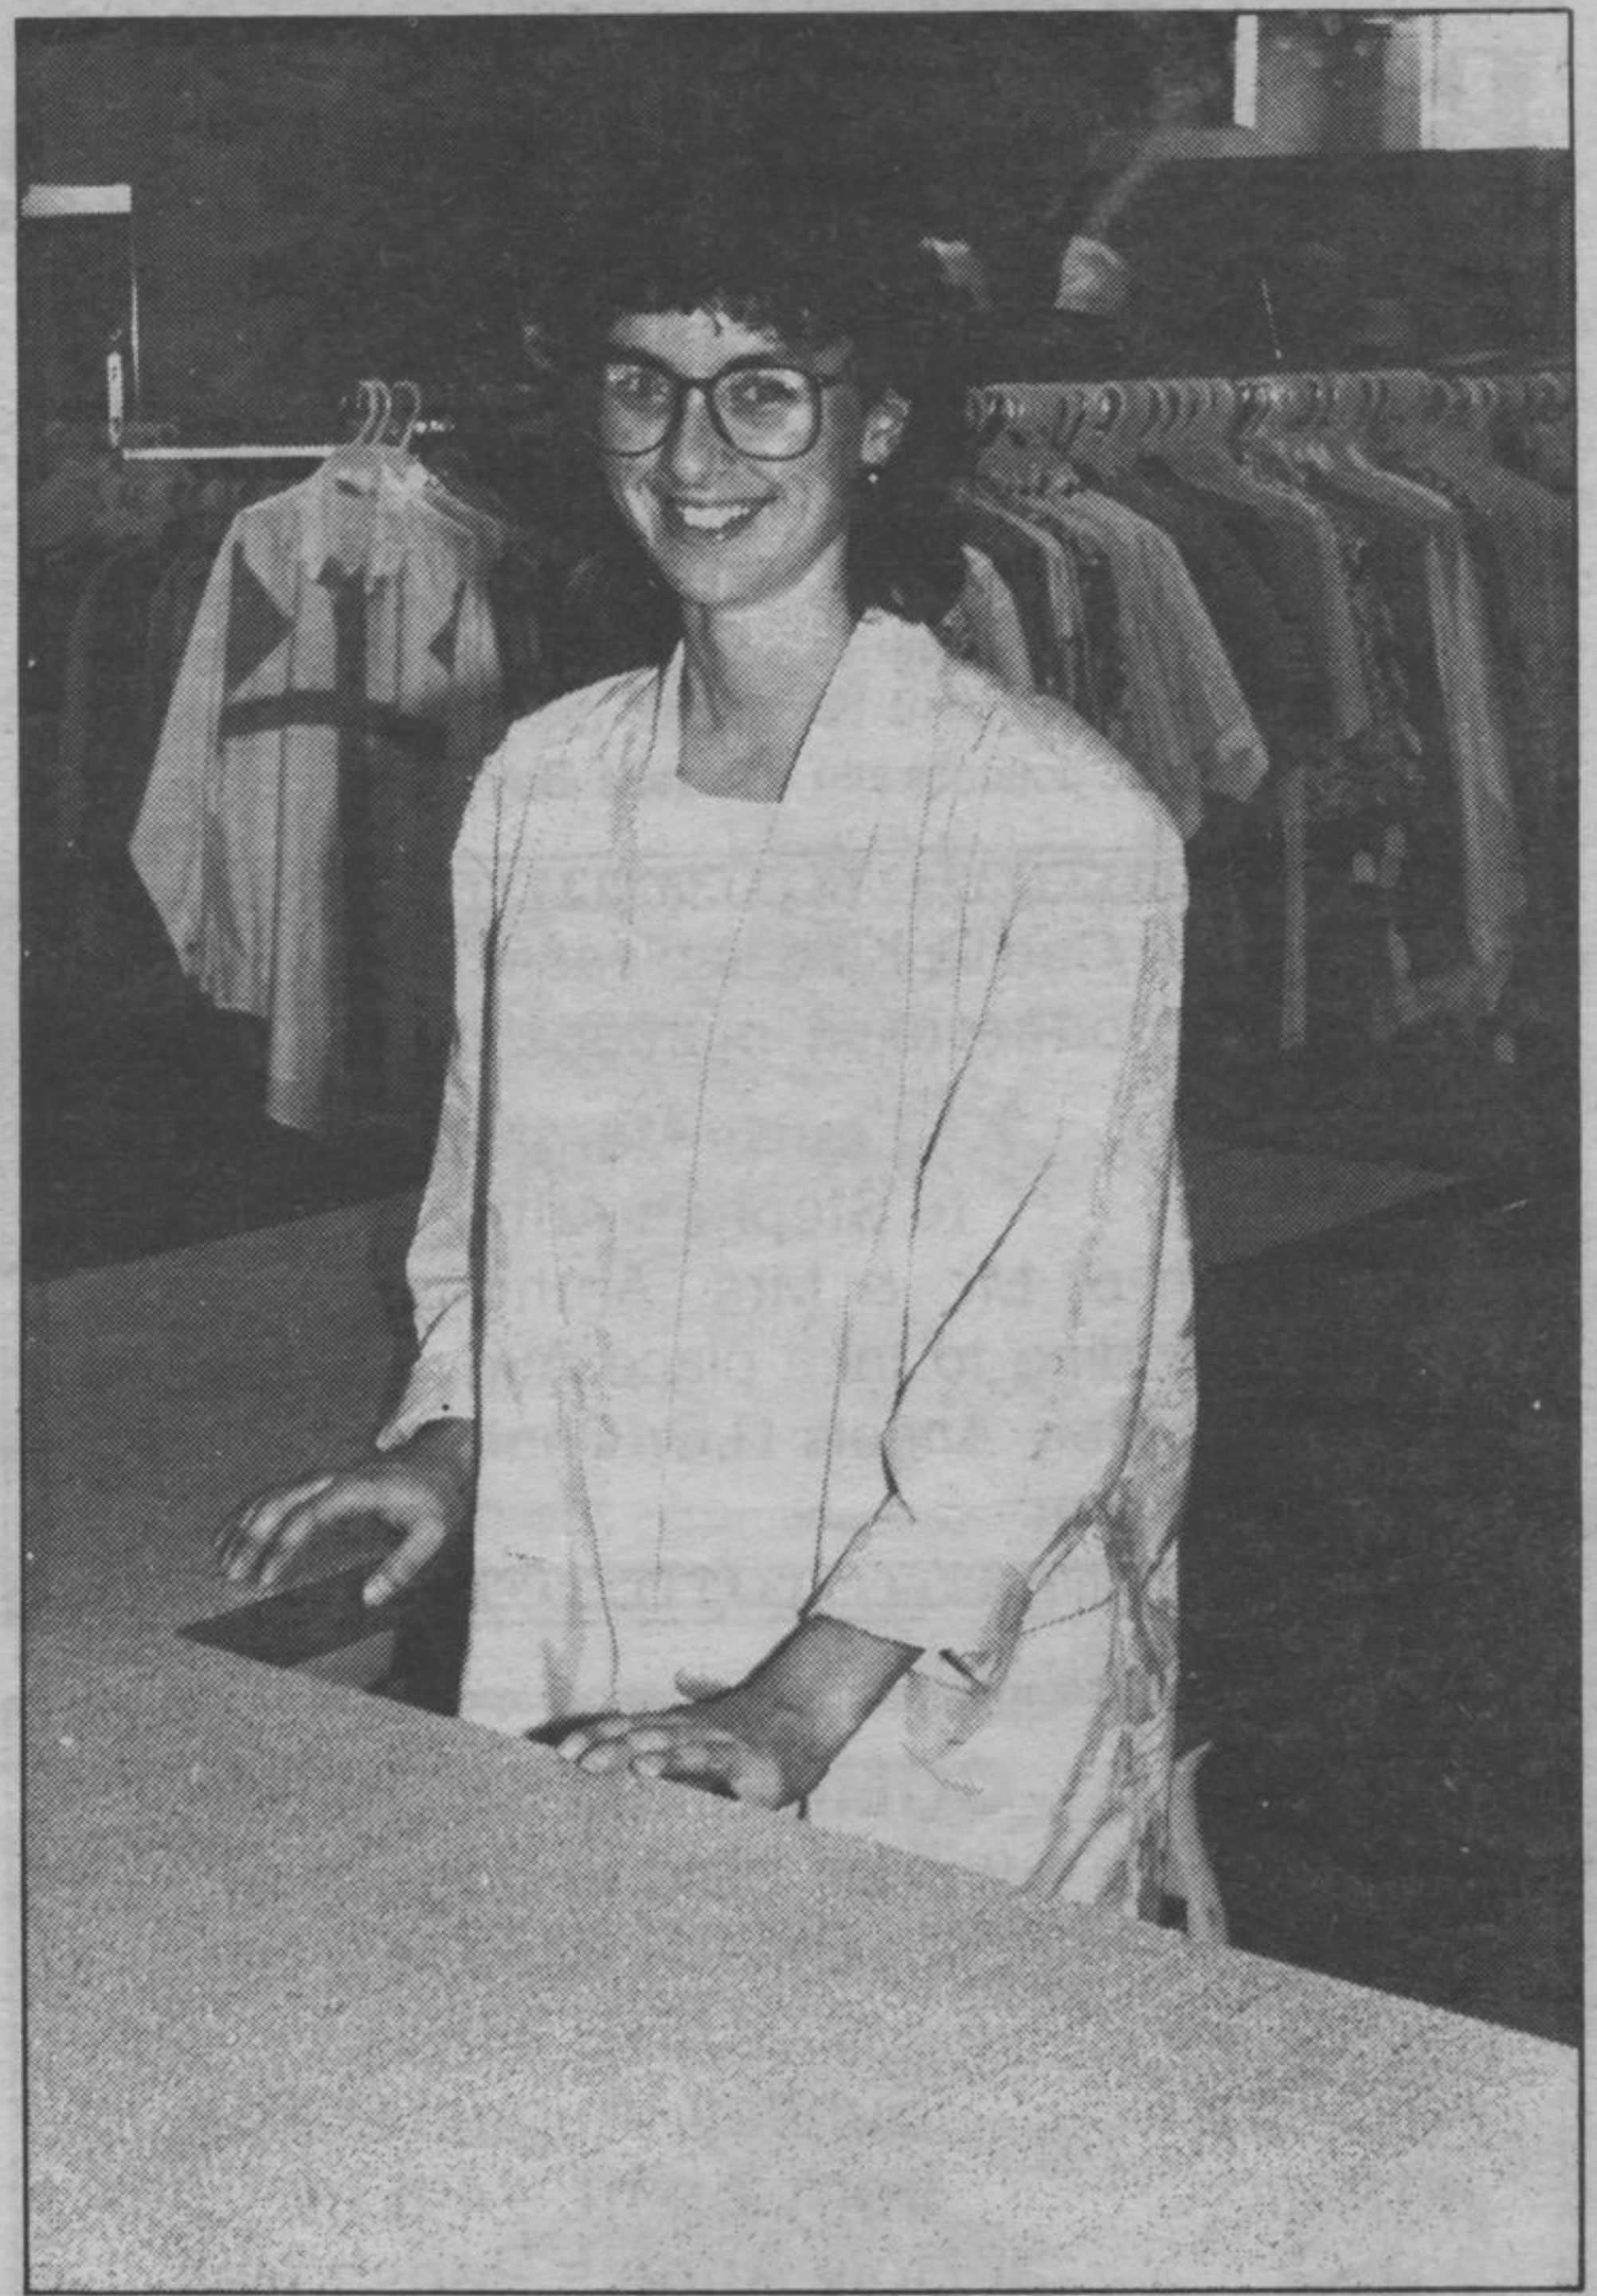

were all working at the fire scene.

Bark pile

The fire started on a huge mound of bark pile Kimberly-Clark uses as fuel in its boilers.

The pile itself measures approximately 200 feet long, 80 feet wide and 30 feet high. Industrial Relations Director Payette approximated the pile at one-half million cubic feet.

Par excellence

Above is Terrace Bay girl Kelly Jean Moore who received the Canada Day Award of Excellence during the Canada Day celebrations. Kelly has done many things to earn this award. These include being a participant in Teen Missions. In the summer of 1986 Kelly went to the Lord's Boot Camp in the middle of the Florida jungle. In Greece Kelly repaired a water line, landscaped and laid blocks.

Bombs away!

This Canso water bomber was brought in from Geraldton last week to help fight the bark pile fire at Kimberly-Clark in Terrace Bay. K-C Director of Industrial Relations Daryl Payette said the fire was started, interestingly enough, by spontaneous combustion. The combustion was helped

along by the hot weather and the tremendous pressure common to such a large pile of bark (Payette estimated the pile at one-half million cubic feet). The fire started early on Tuesday, July 28, and fire crews had it under control by 6 p.m. the same day, Payette said.

Local girl receives award for excellence

By Ken Lusk

The community should and has a right to be proud of Kelly Jean Moore, Terrace Bay's youth ambassador. She was presented with during the Canada Day celebrations the Canada Day Award for Excellence.

This award offered a unique occasion to honour one of our young Canadians who have made significant contributions to his or her community and country.

Kelly was given this award in recognition of an exceptional contribution to the youth of Canada and to the ideals of Canadian citizenship.

Some background

Kelly Jean Moore, 18, daughter of local businessman Michael Moore, has completed Gr. 12 at Lake Superior High School. During her time there, she was a Student Council member and worked on the Yearbook
