St. John safety tip

Minor cuts- Small injuries are almost every day occurrences and they should be given first aid attention so they don't become serious.

They are among the reasons that basic, minimum first aid supplies should be kept in your home and your car.

Small cuts and scrapes that break the skin won't bleed enough to clean themselves. They should be washed with water and anti-septic soap and bandages.

A deeper cut that's bleeding should be controlled with steady, direct pressure on the wound, preferably with a clean dressing, but with your hand if necessary.

Get the victim to sit down and rest, and raise the injured part.

Apply a sterile pressure dressing, and leave it in place, even if it becomes blood-soaked.

If necessary, get medical help. Serious bleeding is life-threatening. You take the same steps, but you must get medical help as soon as possible.

Mannila---

Another week was then begun with a long tour planned with Rene Fontaine in Geraldton.

The next day found the candidate in Longlac where he was interviewed by Larry Saunders of CBQ Radio for the entire day.

Reeve Renald Beaulieu toured the Weldwood plant, Indian reserves and community with Mannila.

Wednesday found him in Caramat and Hillsport. A special blitz was organized for Manitowadge where Mannila proved to be an outstanding success- a reception toward this spirited campaign idea well-taken.

Mannila then continued his campaigning in Marathon, Terrace Bay, Schreiber, Rossport and Pays Plat with visits to the Seniors' home, hospitals, mines and mills.

Conway cancelled

Returning home with early arrangements to return to Terrace Bay to meet with the Minister of Education Sean Conway for mainstreeting ended in Conway cancelling due to bad weather in Sudbury, Ontario.

For the last leg of the tour, Mannila travelled to Schreiber, and then back to Nipigon for the famous Nipigon Fall Fishing Festival where Mannila participated in the parade there.

It was a hectic few weeks for Mannila but he has enjoyed his visits to the outlying areas
