your concerns.

We also compiled an impact study of the Kimberly-Clark problem and presented a brief to the Ministry of the Environment.

Tourism has been identified by the executive as one of our primary objectives.

Both in the areas of development and promotion, we are committed to working diligently.

The first year of operation is a success. This is due, in large part, to a highly dedicated and motivated executive, that has worked hard to ensure this success.

On your behalf, I thank them for their tremendous effort. I would also like to thank the reeve and council for their co-operation and Dean Main and the recreation committee for their support.

Finally, if we are to continue with programs that we have initiated, and embark on new ventures, we as an executive, need your continued support.

While this note is still fresh in your minds, we ask that you renew your membership for the coming year.

Should you wish to commit some time, we would appreciate receiving your name as a potential candidate for our executive. We need your help!

If you are a new member, or know of someone who would like to join the chamber, please let us know. Thank-you for your continued support.

Michael Moore,
president.
