

# Schreiber report from Winnie Campbell

**By Winnie Campbell**  
The Girl Guides and Brownies in Schreiber held their "Thinking Day Tea" on Saturday, February 21. It was a wonderful success again this year.

Besides enjoying a fancy dessert with coffee, they had lots of crafts, baking, toys and odds and ends for sale.

They had seven draws and the winners were Edith Birch, for the marble count, won an aggravation game and a bag of marbles; Cathy Birch won a beautiful handmade doll; Michelle Imbeault won the crystal plate; Elizabeth Wheeler won a hand crocheted baby blanket; Teri Thompson won the hand knitted baby outfit; Lynsey LeBlanc won a lovely fancy cushion and Michelle Imbeault won a beautiful centrepiece.

## Horsing around in the good old buggy days

by Anne Todesco

Those were the days when one would dream of him/herself on a saddle horse galloping over the countryside to faraway places, or owning a classy buggy drawn by a high-stepping horse.

Or turning his fancy to handling a team of horses hitched to a tote wagon while driving the dusty gravel roads to some lumber camp or farm with a load of supplies.

Horse power set the pace whether hauling the loaded wagon or stepping along spritely while hitched to a spring buggy. Usually, the driver's seat on the wagon was just a board attached to the wagon bow, which was very uncomfortable and often caused sore backs.

Then a high spring seat was invented and attached to the wagon box up front making for comfortable riding. The shiny black spring buggies were a joy to ride in and they had a hood that protected the riders from the rain, dust and hot sun. The hood could be lowered like the present day roadster cars.

Some of the classier buggies had fringe, tassels and lights sewn around the front of the hood. There was always a drive shed at the community halls and churches where a horse and buggy could be left while the owner would attend a meeting or social event.

A doctor usually kept two horses which he alternated on his rounds, so that one could rest and be fed, while the other provided the power to transport the doctor.

Horse power was in evidence everywhere -- pulling ploughs, hayrakes, stoneboats, potato diggers, and stumps, or hitched to some type of machinery.
