for more appropriate and productive projects.

Winston Churchill said: "It is sometimes better to be irresponsible and right, than to be responsible and wrong." This is not intended to be an excuse, but most can think of a few times when they have had to make unanticipated decisions as to what was more important if there is not enough time.

We will get a printer next weekend which will allow us to do our paper in Terrace Bay. This will mean more time to follow other priorities. It also reflects our commitment to provide the best service possible to the people of this area. Another important aspect of that service is being receptive to what our readers say and suggest. I appreciate the call from the principal because I have learned some important areas of concern.

Informing us of what you think is important. The principal obviously felt that our paper was an important tool to show the readership what children are doing in school. That consideration means a great deal because it illustrates to us that many people see a definite need for a community paper.

For the record, I also want to ensure the readership that in no way does religious, ethnic or political affiliation or persuasion affect whether or not an article will be in the paper. Both the public and

separate schools were represented in last week's issue, and both communities will continue to be covered.

Whether or not a story will be included—all things being equal—depends on the impact it will have on the residents in this area. This fundamental function of the press should be understood by all.

Most parties wanting coverage have been very considerate by providing notice a few days in advance, and that consideration is appreciated. There have been, however, a few requests asking for coverage an hour or less before the event, and sometimes I have been elsewhere and didn't even hear about the request until I returned to the office.

In the future, if you, your group or organization would like coverage, please contact us a few days in advance if possible.

It would be appreciated if you were to provide a bit of information about the nature of the event, so that background research could be done if necessary. In that regard, the story would be more comprehensive and interesting.

The Terrace Bay/Schreiber News is a business. It provides its clients with a service—information. But it much more than a business by its very nature. We will continually strive to provide its readership with local, comprehensive and relevant news and information.
