Logan is the acting fish and wildlife management/ Conservation Officer Co-ordinator with the Terrace Bay District MNR office.

He stressed that the searches cannot be conducted on an arbitrary basis, so continuous programs are in place. He said large-scale organized searches are not a major priority in this area. They are conducted on an organized basis, however, at locations such as the junction of Highways 11 and 17, and at Pigeon River on Highway 61.

With two conservation officers

in Terrace Bay and one in Manitouwadge, Logan conceded that it might be difficult to provide a strong enforcement presence. He noted, however, that many people respond positively when approached. "The majority of anglers are happy to see a conservation officer," he said.

Conservation Officers have authority under the Game and Fish Act to stop any vehicle or vessel to determine whether the occupants have been hunting or fishing and to obtain information about the number and species of fish or game taken.

Swim Program

Once again this year the swim program will be held at White Sand Beach. Registration forms will be distributed through the schools. We will offer two sessions, the first beginning on July 4, the second on July 25.
