DUKE SNIDER'S PLAY BALL TIPS #2

CATCHING

Catching is one of baseball's most basic skills. Major league players make it look easy but good execution takes a lot of practice.

- 1** Try to catch the ball in the palm of your glove. That way, you'll be able to transfer it quickly to your throwing hand. Always keep your eye on the ball.
- 2** Position your body in front of the ball, legs shoulder width apart, arms extended and slightly bent, throwing hand next to your glove.
- 3** Absorb the force of the ball by bringing your hands toward your body as you make the catch. Always try to use two hands.

For more information on Petro-Canada Play Ball, phone 1-800-268-2244. Next Week... Throwing!
