## The CAT Scanner has become a part of my life.

Without a CAT Scanner in Northwestern Ontario, Terri Lindstrom would have had to make frequent trips to Toronto, at a great expense to her and her family. It also would have meant a delay in diagnosis.

Terri has had an on-going need for the valuable diagnostic service of the CAT Scanner. "The Cat Scanner has become a part of my life. I've depended on it and I know there are others who depend on it too."

A new CAT Scanner is in operation at McKellar General Hospital, serving all hospitals in Northwestern Ontario. But the cost is \$1.5 million and we need everyone's help to pay for it. So give generously . . . with a donation or a fundraising activity of your own.

## It's big, but how does it handle?

Rosport residents had an interesting addition to the beautiful view of the harbour last week. A tank was large fuel storage tank was moored to the dock for a while as workers made repairs before bringing it to its new place of rest in Hamilton.

A spokesperson for F.O.B. Marine Contractors of Thunder Bay told the *News* that it and another tank were removed from McKellar Island near

Thunder Bay.

The two tanks were on their way to Hamilton when rough water near Moffat Straight caused a few problems on Sunday, Sept. 18. One tank broke loose and the other was set loose as a precautionary measure.

The crew of the tug boat *Annis Lee* is expected to continue when the necessary repairs have been made.
