potential flooding

I have just touched upon some of the capital improvements which must be undertaken. We also have many services, especially police and fire services, which are in need of constant change.

Regardless of size, all improvements require large sums of capital. We must tap all levels of government to assist us with these projects. Above all, we must show good fiscal planning and responsibility.

I would like to continue serving you on Schreiber Town Council. I earnestly solicit your support in the upcoming elections on November 14th.
