Canadians invited to visit Taiwan

The China Youth Corps of Taiwan is again inviting young Canadians aged 20 - 40 to participate in the 1989 International Youth and Study Tour to Taiwan.

The tour is a unique opportunity to get to know our second largest Asian trade partner for the cost of the return air fare only (about \$1100 - 1300 depending on point of departure) and to meet youth delegates from around the world.

All costs of the program in Taiwan are borne by the China Youth Corps, a non-profit public welfare organization, which runs Taiwan's Youth Hostels and Youth Activity Centres.

This is only the second year that we have been asked to invite young Canadians to participate, and publicity is very limited.

The chances for acceptance into the program, therefore, are excellent for any young person that has shown a positive community leadership and can provide

an appropriate letter of recommendation from a respected person in the community.

The purpose of the tour is for young people from around the world to exchange ideas on youth affairs and, of course, to get to know the island of Taiwan, its culture, history, trade relationships and political structure.

Preferred candidates will be from the fields of education (teachers, students, youth guidance personnel,) leaders of social organizations, leaders in political parties.

Completed applications must be delivered no later than April 25, 1989 along with a completed Health Certificate.

Cancer can be beaten.

Please give generously.
