1989 marks the fifth year the Play Ball program has been in operation. The Play Ball program teaches children the fundamentals of baseball and softball through coaches' clinics and "do-it-yourself" clinic kits for coaches (including an instructional video

and skill manuals for players). Play Ball will also be sponsoring a number of major tournaments and special events across the country. This year more than 100,000 youngsters and coaches are expected to participate.  
 As part of the program, a series

of 12 Play Ball skill tips have been developed in consultation with Softball Canada, Baseball Canada, Little League Canada and Play Ball clinic instructors Duke Snider and Claude Raymond. These tips will appear weekly in the Terrace Bay/Schreiber News.

## DUKE SNIDER'S PLAY BALL TIPS #1

### HITTING

Meeting a fast moving ball at exactly the right moment with a baseball bat is one of the toughest skills in sports. It all starts the moment you pick up a bat.

- 1** Select the right bat for you, not too heavy or too light. You have to get the bat around quickly so its weight and length are very important. Keep your hands together with the second set of knuckles on each hand lined up straight.
- 2** Grip the bat loosely in your fingers not your palms. Your grip will tighten up as you swing into the ball...
- 3** Many players slide their hands up the handle for better bat control. This is called choking up and it helps you get the bat around more quickly.

## Suggestions for safer biking

Spring has arrived and the movement on the roads is visible again. It has been a long time for bicycles to be in the garage. Most of them are working overtime now that the snow is gone.  
**Before heading out**  
 1. Check your children's bike to be sure that the nuts and bolts are tight, the handlebars are tight and there is the proper amount of air in the tires.  
 2. Be sure your child knows the rules of the road before he/she goes on the streets.  
 The following ten rules

1. Obey all traffic signs and signals.
2. Drive on the right hand side of the roadway, close to the shoulder.
3. Ride single file on the street.
4. Stop before driving into the street from your driveway or lane.
5. Walk your bike across the busy streets and highway.
6. Use correct hand signals.
7. Never ride two on a bicycle.
8. Carry parcels and books

9. Never hitch a ride on another vehicle.
  10. Never ride at night unless your bike is equipped with light and reflectors.
- Did you know** in 1980, 34 Ontario residents were killed in bicycle accidents and 3,394 people were injured. Half of these involved children under the age of 14.  
 Let's not add to statistics. Be sure your children know the rules and obey them.

### In memory of James Wellington

*As times unfolds another year  
 Memories keep you ever near  
 Silent thoughts of times together  
 Hold memories that will last forever.  
 Sadly missed by Shauna Wellington*

### In memory of James Wellington, Louis Arsenault and Jamie Ferguson

*We can't have old days back  
 When we were all together  
 But secret tears and loving thoughts  
 Will be with us forever.  
 Sadly missed and remembered by Shauna Wellington*

## Plan Ahead for Good Service

If you are planning to re-wire your home to upgrade its electrical service - or - if you plan to build a new home, cottage or office building, please don't let us be the last to know.  
 When we know ahead of time, inspection and connection of your Hydro service won't hold up your plans.  
 If there are no existing hydro lines to the property, installing new service can take quite some time. It's especially important to let us know about your plans well ahead of time.

So, to help us serve you better and to eliminate delays, contact us to discuss your plans as soon as possible. Call Elaine or Sandra in Thunder Bay at 343-3392 or 1-800-465-3960. Or complete and send us the coupon below.
