## Memories

An interesting item appeared in the RosSPORT monthly newspaper regarding the Women's Institute Hall. Most of the copy is more or less correct. It was built in 1929 with the Molinski Bros. taking on the contract headed by Joe Molinski the manager.

It was built in record time with the lumber purchased from the Molinski Bros. contractors - cut dried and planed when needed. Charles Todesco sold the hardware required at wholesale price, such as nails and locks. Glass for the windows, doors etc... were purchased from the Thunder Bay Lumber Co. as well as the siding. All painting, scrubbing and cleaning done by the ladies.

With unrest and wars in Europe, the members decided to disband after a year-and-a-half. The group had one ambition and that was to have a community hall in the village. When Mrs. Todesco

came to reside in RosSPORT she was invited to their last meeting.

During discussion about disbanding, she encouraged the ladies themselves to keep on for a few more years and maybe their dreams just might come true.

The result was they formed another executive headed by Mrs. Todesco. At the time they had the sum of \$33 in the bank. So to work we went finally saving. Collections, donations and entertainments managed to gather the sum of \$700 and had the hall started and built before winter arrived.

We were fortunate to have a promissory note backed by Fred Gerow and had all our debts paid up in three years time. That took in the dirty thirties and hard going.

Our first chimney appeared to not like the cement holding the bricks so we tore it down, cleaned
