Search & Rescue

Continued from page 8

in Egypt; support of the Commonwealth Observer Group in Zimbabwe, Africa; support of the northern airfield construction program; provision of a regularly scheduled service flight from Trenton to Washington, DC via Ottawa weekly; and various other support and VIP transport missions in North America and Europe.

One major SAR mission occurred in August 1985. SAR Sawyer was a search for a Piper J-3 on floats missing in the Chapleau, Ontario area. In seven days, 427 hours were flown by both military and civilian aircraft without any clues. The search was reduced and some time later Mr. Sawyer turned up at the Thunder Bay Hospital Psychiatric Ward, where it was discovered he did not want to be found - he had landed at a lake near Chapleau, dismantled, burned and sank his father's aircraft. The case was turned over to the authorities.

SAR Leonard took place in February 1987. Late in the afternoon on the 12th of Feb., 1987, Mr. Leonard and one passenger took off from Parent, Quebec planning to fly to St. Veronique, Quebec in an ultra-light airplane. The aircraft had no emergency locator transmitter, radio, compass or heater. The weather at Parent was bad and it got worse enroute. Leonard became lost and due to fuel exhaustion had to land 13 miles off track. The temperature overnight was -35 degrees C. Some 40 hours later, the two men were spotted by a Labrador helicopter, picked up, and returned, weak, tired and cold to their happy families.

Search and Rescues account for 35 per cent of all flying time at the 424 Squadron; transport accounts for 21 per cent of flying time and training accounts for the remaining 44 per cent of flying time.

THE NEW ENVIRONMENTAL PARTNERS FUND.

TOGETHER, WE CAN MAKE A DIFFERENCE.

Created by the Government of Canada, the Partners Fund will make \$50 million available over the next five years for projects to help local groups protect, preserve, enhance and restore our environment.

Anyone can get involved. If you're a member of a service club, community organization, environmental group or a school or youth group, discuss the Partners Fund with your leaders. If you have a good idea, organize your own group and apply to the Partners Fund soon.

How much can a Partner receive?
 Partners can receive up to \$200,000.00 over three years, depending on the size of the project. In keeping with the idea of partnership, the federal contribution is limited to 50 per cent of the total cost.

Many ways to be effective. Clean up local parks, lakes or streams. Develop new community or office recycling programs. Use your imagination and get involved!

Apply soon
 The first deadline for applications is September 1st, 1989 with awards to be announced in early autumn. Beginning in 1990, there will be three deadlines each year: March 1st; June 1st; and September 1st.
 For more information or for an application kit to get your ideas into action, please write or call the Environment Canada office in your province or territory.
