Terrace Trivia

Did You Know????

On March 14, 1963 the construction of the new swimming pool was started. It was mostly paid for by pledges from the town's people.

In 1970, the new addition to Lakeview Drive and Superior Avenue was started and the first new house went up in 1971.

In 1974 the Terrace Bay airstrip was built.

In 1978 the Municipal Airport was officially opened.

In the spring of 1980 the Recreation Centre was turned over to the Township of Terrace

Bay. The Township received a Wintario grant which enabled them to start on new additions and renovations to the building.

Friday, September 1 the Tourist Office closed for the 1989 season. We hope to see everyone again next summer.

Church activities

Welcome back! Fall and winter activities at the Terrace Community Church are starting once again.

Reverend David Sparkes leads

regular Sunday worship service at 9:45 a.m. Our Sunday School programs for children of all ages coincides in time.

Registration Sunday for Sunday School will be September 10 with a special exciting program planned for that day. We encourage all children to come out for this fun event.

Our church auxiliary continues to meet the third Monday afternoon of each month at 1:30 p.m. and a welcome is extended to anyone who enjoys crafts and companionship.

As well, Bible study will be continuing throughout the winter months.

Pet should see Vet in emergency situation

By Alice Scott

You and Rover are out for your daily walk. Suddenly, a cat runs across the street. Before you know what has happened, your dog has bolted after the cat and is hit by a car.

This is a situation that could happen to anyone, but how you handle it could mean life or death for your pet.

Any animal that is hit by a car is considered an emergency patient.

First remember to stay calm. Your pet can pick up on your feelings, so you must stay calm and speak soothingly.

Let him assume the most comfortable position, he will adopt the one of least pain. Don't force him to lie down, it may make breathing more difficult. Check to see that his airway is open, clear his mouth and pull out his tongue to keep his airway clear of secretions.

With as little movement as

possible check him for open and bleeding wounds.

Place a pressure bandage over the wound. Have someone stay with your pet while you get a vehicle to transport him. Call your vet immediately to inform him of the accident. This is not a situation that you can handle yourself.

Place your dog on a flat board or in a blanket if the board is not available. Gently lift him into the car. Have someone drive while you comfort the animal.

Bring extra blankets in case the animal goes into shock. Do not attempt to feel for broken bones since you might do more harm than good.

Many veterinary hospitals have a 24-hour emergency number. If you do not have an emergency number, make a point of getting it soon.

Never take your pet to an unqualified person. I have many people call me and I usually give

them emergency advice only.

Call your vet, they are the only ones qualified to help you.

Anyone interested in the Dog Obedience class there are a few openings. Classes will be held in Schreiber. Call Alice Scott, 824-2052.
