government to get away with the next controversial issue. Today it's the VIA Rail cutbacks. Tomorrow the Goods and Services Tax, then Meech Lake. What will it be after that? A dictatorship? Or maybe the government will decide it's too much work to run the country and let the United States take us over.

If you care about the VIA Rail cuts, the names and addresses of those people who could make a difference are listed below.

Don't be one of the silent majority. Don't let the government get away with running the country the way it sees fit instead of the way you and other Canadians want to see it run.
