Programs

Gymnastics

The Gymnastics Program is in full swing. Classes are held at the Terrace Bay Campus Gymnasium on Monday and Wednesday evenings. Kindergym is held Mondays from 6 to 6:45 p.m. The 7 years and older group is held Monday and Wednesday from 6 to 8 p.m. If you wish to register or for more information contact the recreation office at 824-2317.

Oldtimers Hockey

The recreation department is now accepting names of those persons interested in an over 35 hockey team. If enough interest is shown ice time will be allotted to the program. Persons wishing to register should contact the recreation office as soon as possible.

Future Programs

The Recreation Department will continue to accept names of persons interested in any of the following programs.

1. First Aid
 2. C.P.R.
 3. Weight Training Course
 4. Over 40 Aerobics
 5. Server Intervention Program
- When enough interest has

been obtained for these programs, dates and times will be finalized. Don't forget that if you have an idea for a program or have a skill that you feel others might be interested in learning the only way we will know about it is if you call the recreation department. We will be happy to try and organize any program.

Ballroom Dancing

This exciting program has been set for Saturday, January 20 and Sunday, Jan. 21, 1990. Dolores Niskanen of Thunder Bay will be conducting this 6-hour workshop at the recreation complex. The Waltz, Polka, Fox Trot and Jive are some of the dances you will be taught. Registration deadline is Friday, Jan. 12. For more information please contact the recreation office.

Children's Dance

The instructor that the recreation department had arranged to conduct the program has backed down. We are presently trying to locate another instructor and will continue to accept names of interested persons. If you wish more information or know of someone who is qualified to instruct such a program, please contact the recre-

ation office at 824-2317.

Crafts 'N Stuff Sale

Don't forget the first annual Craft 'n Stuff Sale at the Schreiber Community Hall on Sunday, Nov. 26 beginning at 1 p.m. and running until 5 p.m. For table space or more information contact the Recreation Office at 824-2317.

Regular Season Games

Sun. Nov. 26	9-10:30 p.m.	Diesels vs Sabres
Mon. Nov. 27	9:30-11 p.m.	Superiors vs Diesels
Wed. Nov. 29	9:30-11 p.m.	Sabres vs Superiors
Sun. Dec. 3	9-10:30 p.m.	Superiors vs Sabres
Mon. Dec. 4	9:30-11 p.m.	Sabres vs Diesels
Wed. Dec. 6	9:30-11 p.m.	Diesels vs Superiors

Fireplace safety

With the winter season here, if you haven't already done so now is the time to inspect your chimney, particularly if your heating system is oil, natural gas or propane.

With these fuels, your furnace does not stay running long enough to keep the chimney continuously hot.

That's when condensation of the water in the "smoke" can occur and why you see so many chimneys with mortar and brick deteriorating, and liners crumbling. This moisture can also blister the paint on the wall covering the chimney.

Energy conservation efforts which have tightened up many houses, reduced furnace firing rates in many cases, and lowered thermostat settings have also resulted in chimney deterioration.

Cold air is more dense than warm air. As air cools, it can form a column of heavy air in the chimney. When your furnace starts up, it tries to drive this air up the chimney.

Sometimes it is not successful, and the products of combustion spill back into the furnace room.

Such spillage can also occur if there is a blockage in the chimney caused by rubble, a dead bird or small animal or even a bird's nest.

If the products of combustion end up recirculating through the burner, they could become lethal. You can detect spillage from an oil furnace by smell, or from a gas furnace when there is a high degree of moisture spilling from the draft hood, or if there are signs of paint discoloration around the draft hood.

Make sure your chimney is clear of obstruction by holding a mirror inside during the inspection or clean out the opening at the bottom of the chimney to ensure there is daylight at the top.

Loose or crumbling masonry can be detected by a visual inspection. Call in a specialist if you think there is a problem. Your oil supplier or gas utility may be able to provide an inspection service, or suggest someone who can.

It is important that homeowners check their chimneys at regular intervals. Poorly maintained chimneys and heating systems can lead to tragic accidents, such as carbon monoxide poisoning.

The Hawks and Devils faced off against each other last Wednesday evening in Terrace Bay No Body Contact Hockey. Hawks ended up winning the game by a score of 9-2. Photo by Dave Chmara
