# Smoking in the workplace

Continued from page 5

that smoking is confined to designated smoking areas, or, if smoking is prohibited, to ensure that no one smokes in the workplace.

Under the new legislation, employers convicted of an offence are subject to a maximum fine of \$25,000 and employees to a maximum fine of \$500.

The law covers all workplaces within provincial jurisdiction, encompassing approximately 3.9 million workers in 233,000 workplaces - more than 90 per cent of the province's workforce.

These include retail, commercial, manufacturing and mining operations, hospitals, social agencies and educational institutions.

Residential workplace areas, such as hotels and detention centres, will be excluded from the legislation, as will vehicles and areas in which the public is served, such as the public areas of restaurants.

Areas of a workplace used primarily by the public are also exempt from the Act. For example, shopping malls, and the floor area of a store or service centre that is accessible to the public are not subject to the new law.

Some municipalities already have restrictions on smoking in the workplace. Under the new Act, the more restrictive provision will prevail. In other words, under the new legislation, smok-

ing is permitted in shopping malls and taxi-cabs.

However, if a municipal by-law states smoking is not permitted in these areas, the municipal by-law will be considered the

rule.

The new law does not require an employer to ventilate a workplace or to provide physical barriers to separate the smoking area from the non-smoking area.

## TO ALL SNOWMOBILE USERS

The snowmobile season is here and we wish to emphasize the safety aspects of this sport.

Many roads used by snowmobiles in our mill area have gates or cable barriers which could cause injury or death to careless snowmobile operators and damage to their vehicles.

We wish to remind everyone of these potential hazards and emphasize the need for care and common sense in snowmobiling.

Please help all of us who work at Kimberly-Clark ensure that safety is a way of life, on and off the job, throughout our entire community.
