

THE CANADIAN PAPERWORKERS UNION

***We are the largest Canadian Union representing Forest Industry Workers; more than 65,000 members from coast to coast.**

***Our system guarantees local unions the autonomy to decide issues for themselves (including strike action which requires a two thirds majority vote).**

***We provide education programs for local officers and stewards who also rely on the expertise of trained representatives and technicians to provide the best service possible.**

***We are highly respected in the Canadian Labour Movement: CPU'S National President is a Vice President of the Canadian Labour Congress: Our Regional Vice President is a Vice President of the Ontario Federation of Labour: Labour Councils across Canada rely on the participation and support of C.P.U. members.**

***The C.P.U. has developed strategic policies to meet the needs of Canadian workers in the 1990's.**

***Ontario law provides workers with the right to democratically choose which union they will be represented by.**

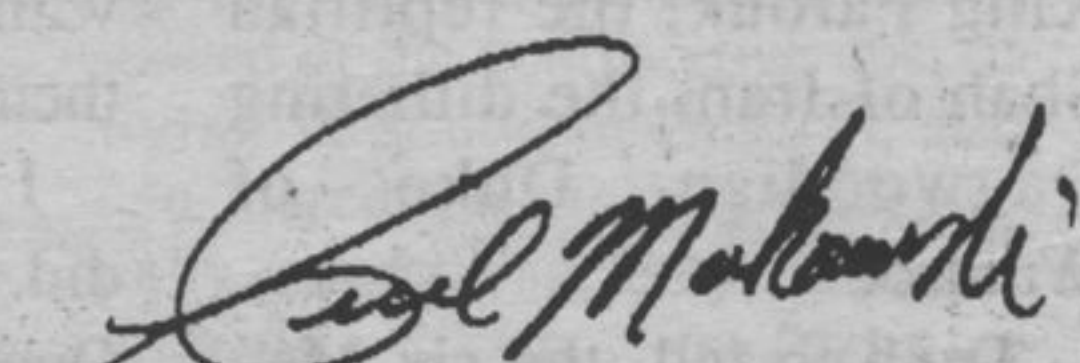

***All wages, benefits, conditions of employment, rights and privileges are protected when you change unions by the Ontario Labour Relations Act.**

***Thousands of organized workers in Ontario have switched to the C.P.U.**
