## Letter to Editor- cont'd from 4

ented. We are education oriented and of course, we do not want to be cost efficient in our education process. We are not a group out to close Kimberly-Clark, Minnova Inc., Canadian Pacific Railway or any other business. We want to help everyone in the community to learn how they can help save our natural resources for ourselves and generations to come.

We can all make small sacrifices to help clean up our environment and to reduce the amount of energy used and the amount of waste deposited in our local landfill sights. The time to make a difference is now. We can all help. If you would like information on how you can practice the Three R's in your own home,

read the Household Items column of the Terrace Bay/Schreiber News for helpful hints or contact E.A.G.E.R. at Box 1145 Terrace Bay, ON

Yours sincerely,
