Don't blame us

We manage post offices in communities like yours - the backbone of postal service in this country. We understand the frustration you feel over the decline in service from Canada Post. - You're not mistaken. Consider these facts:

- 800 post offices have been shut down, and the list is growing every week
- Saturday hours in the federally operated post offices are being reduced and the doors are being closed to the public during noon hour throughout the week
- management's alternative is to have more and more mail processed in variety stores

We think you deserve better.

Things can change if politicians know their jobs depend on it. Tell your Member of Parliament that the federally operated post office is a service you won't do without. They'll get the message.
