

All the World's a Circus

with a motivational program of putting the photographs of people who still have jobs on the back of milk cartons.

The finance minister's office came up with a rosy prediction of the economy in the last quarter of this year but the only one willing to be quoted in the media campaign is THE TOOTH FAIRY.

Government economists have stricken the phrase "LAST QUARTER" from all future financial reports due to the fact that most Canadians are now down to theirs.

The staffer's in the prime minister's office, who are writing his Throne Speech address are in real trouble. The put in all the things Brian Mulroney wants us to hear but the censors won't give it a NON-FICTION RATING.

In a dispute over how bad the Canadian industrial stock market really is, Dow kneed Jones right in the commodities index in front of witnesses on

Wall Street.

Sears are capitalizing on the sad state of financial affairs by introducing the "CANADIAN ECONOMY CHAISE LONGUE," which they claim "actually folds up faster than a lawn chair."

In order to cut his budget for cabinet wages, the prime minister is actually encouraging other cabinet minister to make gun jokes while clearing airport security.

You know the economy is bad when Mike Wallace of *60 Minutes* does an investigative piece on how it got to this state, and Micheal Wilson refuses to be interviewed on camera.

The truth of the matter is that the federal conservatives have the means to turn around the economy and wipe out the national debt and they could do it within party ranks - all they have to do is put a 7% tax on incompetency. We'd be rich, rich, rich.

Life According to Baba

continued from page 5

A vacation trip once a year and a couple of week-ends could surely be enough time to allocate to these bunny-border-hoppers. Or else they could move to the U.S.A. But if they're going to continue living in Canada and enjoy Canadian benefits (of which they brag to their American 'cousins'), then let them bear their tax burden along with the rest of us.

And the sooner the government comes up with a real hard-hitting policy with real teeth in it re this billion dollar bonanza for the Americans and a billion dollar tax loss for us Canadians, the happier everybody will be. This way, these bunny-hoppers are helping to create more dissension in this country which is up to its collective eye-balls in dissensions of all kinds from sea to shining sea.

Thank You

I would like to thank all the people and the Legion Br. #109 who supported me in donating bottles and money to cover some of the expenses for my trip to the Provincials in North Bay. It was greatly appreciated and had a lot of fun. Met a lot of nice people and it was quite an honour to be there.

Thanks Again!

Sincerely,
Jennifer Martin
