Crafts for Kids
 by Carolyn Williams
 Crayon Etchings

Materials:
 Crayons (light colours are best), Black crayon or thick black powder paint, Bobby pin or other sharp pointed instrument, White paper, newspaper
Method:
 Draw different colors over entire surface of white paper, pressing firmly to get a thick layer.
 With a pad of newspaper under paper -to help black crayon cover more smoothly - cover whole paper in black crayon or powder paint.
 Remove the pad of newspaper, you'll need a hard surface for the etching, place one layer of fresh newspaper under picture for easier clean-up.
 Scrape the black layer of crayon or paint(after it has dried) with pin in any design.
 The colours underneath will be revealed, so be sure to use a lot of different colours in small patches or stripes when first covering sheet.
