

RosSPORT Bottle

Continued from page 1

exposed," said Anita. Excited by the find, she contacted a friend so she could have a witness when the bottle was opened.

"It was quite a struggle to get the top off, especially when you're excited," she said. As well as having a cork in the bottle there was black electrical tape wrapped around the spout. "There was no water inside, it was absolutely dry."

Inside the bottle, Anita found one piece of paper, rolled up, and held by an elastic. A second elastic lay broken, probably worn by the sun. When the paper was unrolled there was a tear down the page where the surviving elastic had been pressing for two years.

The letter read:

"I am sending this letter on my last day of vacationing in RosSPORT. I have always _____d RosSPORT and the shores of Lake Superior. I hope that the discoverer of this bottle will send a response to me:

*Tricia Zwaresh
Thank You,*

*to the finder
may all your dreams come true!*

(The letter also lists Zwaresh's New York State address. The underlines indicate where the ink had faded beyond recognition.)

"I am hoping she gets in touch with me," said Lange, who so far has only been able to contact Zwaresh's brother.

Lange is still amazed that after travelling 35 miles over two years the bottle was in such good shape.

"It's really remarkable that it survived," she said. Lange added that in her and her husband's twenty years of boating they had not made such an exciting discovery, although she has given passing thought to sending a note in a bottle.

"I've always thought it would be interesting to do that," she said, adding with excitement, "It was such a thrill to find it."

Summer Fun

Continued from page 1

Some of the activities already held include visits to the police station, Schreiber Beach and Schreiber Falls.

Trips to the fire hall and over-night camping are planned for the near future.

Long said that the kids help to choose their activities.

"They like games that involve getting dirty and getting wet," she explained. "They are enjoying themselves very much."

Many activities at the Terrace Bay Pool

The Terrace Bay Swimming Pool has its summer programs well under way.

Jodi Speer is pool manager for a second summer. Her staff

includes an assistant manager and five instructor/guards.

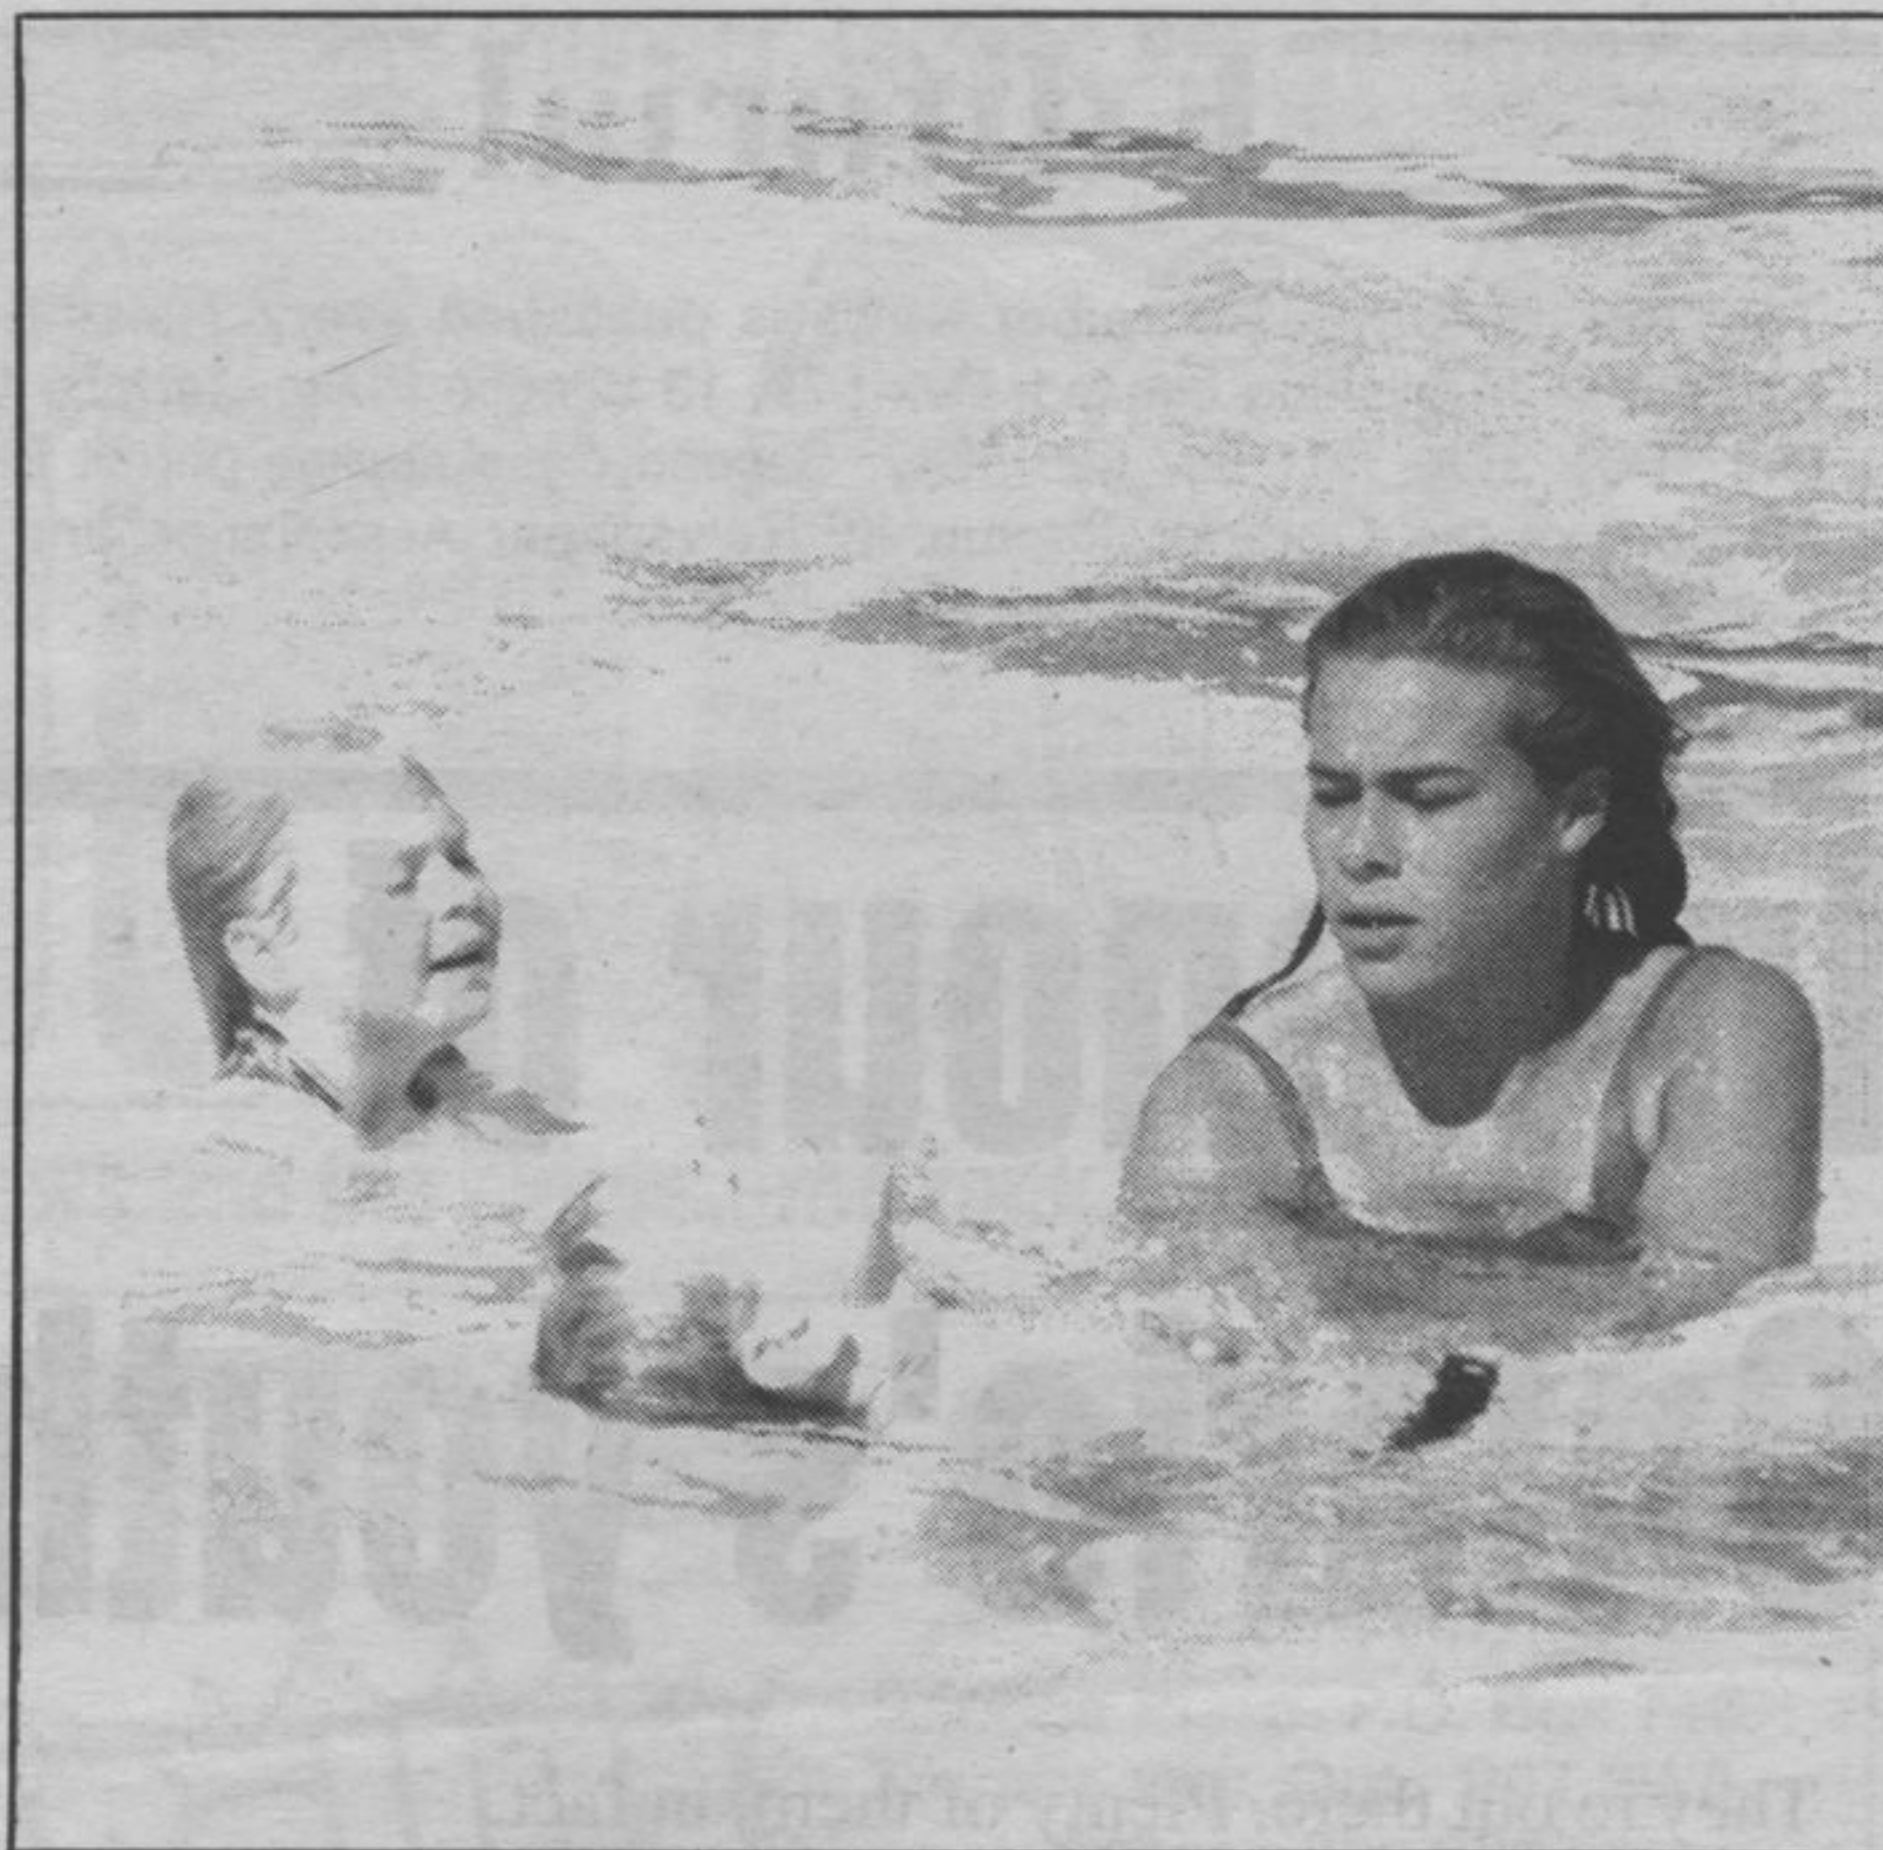

There are about 216 kids taking swimming lessons in all levels of the Red Cross program, from Yellow to Bronze Medallion. Lessons are run in two sessions: one in July and one in August.

Public swims are well attended with approximately 60 kids out each afternoon. There are about ten people regularly attending the adult swim time.

Extra programs include Aquabics, Mom and Tot, and the annual Swim to the Slates.

"Thirty people are enrolled in the Swim to the Slates," said Speer. "This is more than other years. There are many adults involved who have never come out to adult swim before."

All swim programs at the pool will end after the third week of August.

Learning to float can be a very relaxing experience for the student - but not necessarily for the teacher

Geological study of Coldwell Complex

The university of Western Ontario will receive a \$306,800 grant over four years to study mineralization in the Schreiber-Marathon-Manitouwadge area of north-western Ontario, the Ministry of Mines has announced.

This research, concentrating primarily on the Coldwell Complex, will result in maps and mineralization targeting models which will help encourage exploration.

Supported by this Ministry of Northern Development and Mines grant, the university will map and conduct applied research on mineralization in alkalic complexes.

Alkalic and alkalic/carbonate complexes are potential sources of rare earth elements, base metals and industrial minerals. The university approach is compatible with Ontario Geological Survey, Ministry clients will have easy access to research results.

Case

Used Logging Equipment

1990 Case 1187-C Denis Delimber \$220,000

1987 Case 125-B Denis Delimber \$66,400

1987 Case 170-B Weldco Beals Log Loader \$96,000

1987 Case 1187-B Feller Buncher 50/50 Saw \$79,500

1988 Case 1080-B Excavator \$85,000

1987 350 Barko T.L. and 8' Log loader \$30,000

Also... Good selection of construction loaders and backhoe loaders
