Funding for futures

The Schreiber - Terrace Bay Community Futures Program

has received \$549,997 in funding for 1992 operations from the Employment and Immigration Ministry.

Revenue Minister Otto Jelinek, on behalf of Employment and Immigration Minister Bernard Valcourt, announced the funding in a press release dated Jan. 8.

"The corporation will receive \$549,997 so that it may continue its successful efforts to facilitate the establishment, expansion and stabilization of small business," the press release quoted Jelinek as saying.

"The business advice and investment funds provided by the corporation help create permanent, long-term employment in Schreiber-Terrace Bay."

Community Futures are aimed at helping communities hard hit by layoffs or unemployment to identify, develop and implement measures to expand employment and help individuals adjust to their economic environment.

RAP Meeting

The Jackfish Bay Remedial

Action Plan Public Advisory Committee will be meeting on Wednesday, Jan. 22 at 7 pm, in the Recreation Room at Birchwood Terrace in Terrace Bay.

The PAC will discuss remedial options for Blackbird Creek.

Parent/Community Advisory meeting

The first Parent/Community Advisory meeting took place Tuesday, Jan. 14, and despite cold weather there was a good turnout.

The primary topic of the meeting was a discussion of the English program, especially the grammar component. Some time was spent re-affirming the committee's goal of supplementing the formal school system, as well as exploring ways to accomplish that goal.

Irene Moore made a brief presentation on how the modern english curriculum dovetails language instruction — including grammar, literature and study of communications media, such as newspapers and computers.

The subject of graduation

ceremonies for O.A.C. students was also discussed. Most committee members were in favour of recognizing the achievements of these students, but agreed that the graduation committee should have input into any such decision.

The next meeting will be held in Schreiber Feb. 10 at 7 pm, and timetabling and course selection will be the topics of discussion.
