Keep raising money for Freddy

The CEO of the McCausland Hospital apologizes for giving inaccurate information to the Terrace Bay-Schreiber News, regarding the article "Donations push Freddy over the top" in the Jan. 28 edition of the paper.

Donations are still needed to push Freddy over the top. In fact, \$100,000 remains to be raised to reach our goal of \$350,000, because \$100,000 from the Hospital Capital Equipment Depreciation Fund was erroneously calculated into the amount given for publication.

Please continue your fundraising for Freddy the

Fracture Finder.

Crime Stoppers crime of the week

Shirley Payette, 44 years old, was last seen alive in her Terrace Bay home Friday, March 23, 1990. Nine days later, on Sunday, April 1, her body was found in the Steel River, which is located 25 km east of Terrace Bay along

Highway 17.

Approximately one hour after Payette was last seen alive, witnesses saw a white vehicle just east of Steel River Bridge stopped on the north side of the highway.

The autopsy report indicated that Shirley Payette was beaten about the face and likely rendered unconscious. Investigation was conclusive that she was thrown off the bridge into the river 70 feet below.

The recovered body was clothed in blue jeans, pink socks, pink blouse and a white cardigan sweater. To date police have not been able to locate Payette's black purse, her grey winter jacket and

white boots.

If you have any information about this crime, please contact Crimestoppers at 1-800-465-6844.

Remember, a reward of up to \$500 will be offered for any information.

Correction

Students experience disabilities first hand

Students found out what it would be like to be disabled

Students at Terrace Bay Public School spent last Thursday afternoon finding out what it would be like to live with a disability.

The students were separated into 15 different groups, and then took part in 15 activities that simulated different disabilities.

Among the activities that simulated vision impairments was a trust walk, in which one student was blindfolded and was guided around by another student.

While blindfolded, they had to perform everyday activities such as going to the washroom, continued on page 3
