

# Support for Drug Awareness Week

Both CP Rail System, Algoma Division, and Minnova Mines, Winston Lake Division, have contributed to the cost of Drug Awareness Week Activities organized by Kimberly-Clark's Drug and Alcohol Awareness Committee. Minnova, represented by Madge Richardson, donated \$1,000 while CP, represented by Mike Couse, donated \$500 on behalf of its Employee Assistance Program, represented here by Dave Bedard and Joe Sheehan. Chairperson Linda Blake accepts the donations on behalf of the committee.

supposed to watch, not actually try and do, the job they were shadowing.

"There was one student who hurt his arm last year, but it wasn't broken and it wasn't a major problem," says Dickson. "So this year we stressed that this isn't like co-op education, and the students should just watch. That should eliminate

the chance of anyone getting hurt."

Along with the Business Development Centre, Community Futures hopes to expand its boundaries to the Nipigon-Red Rock area. If they do get permission, Dickson says they would try a similar program if the schools agreed.

"We'll try and negotiate with their Board of Education to see if they want us to run a

similar program," she says. "But it wouldn't affect the program here."

Dickson says they'll keep running the program in Schreiber and Terrace Bay as long as the schools and the employers are interested in participating.

"But the real question may be finding out why we only had 40 students this year instead of 80," she says.
