INSTRUMENTATION PROJECT ENGINEER

If you thrive on responsibility, have good communication skills and can demonstrate both technical and administrative abilities, this position could be for you.

The ideal candidate will have an engineering education with 4-6 years' experience in analog/digital process control applications with some project responsibility. Familiarity with loop configurations, logic circuits and control panel design will round out the applicant.

The successful candidate will have complete responsibility for all aspects of customer projects including design, liaison, costs and scheduling.

Competitive salary, excellent benefits and a superior plant environment are offered.
