It's Bigger Than You Think!!

Doesn't look that large from outside -- but don't be fooled. Inside can be found 1,700 sq. ft. of pleasurable living space. It's a home that provides the room and comforts you've hoped for.

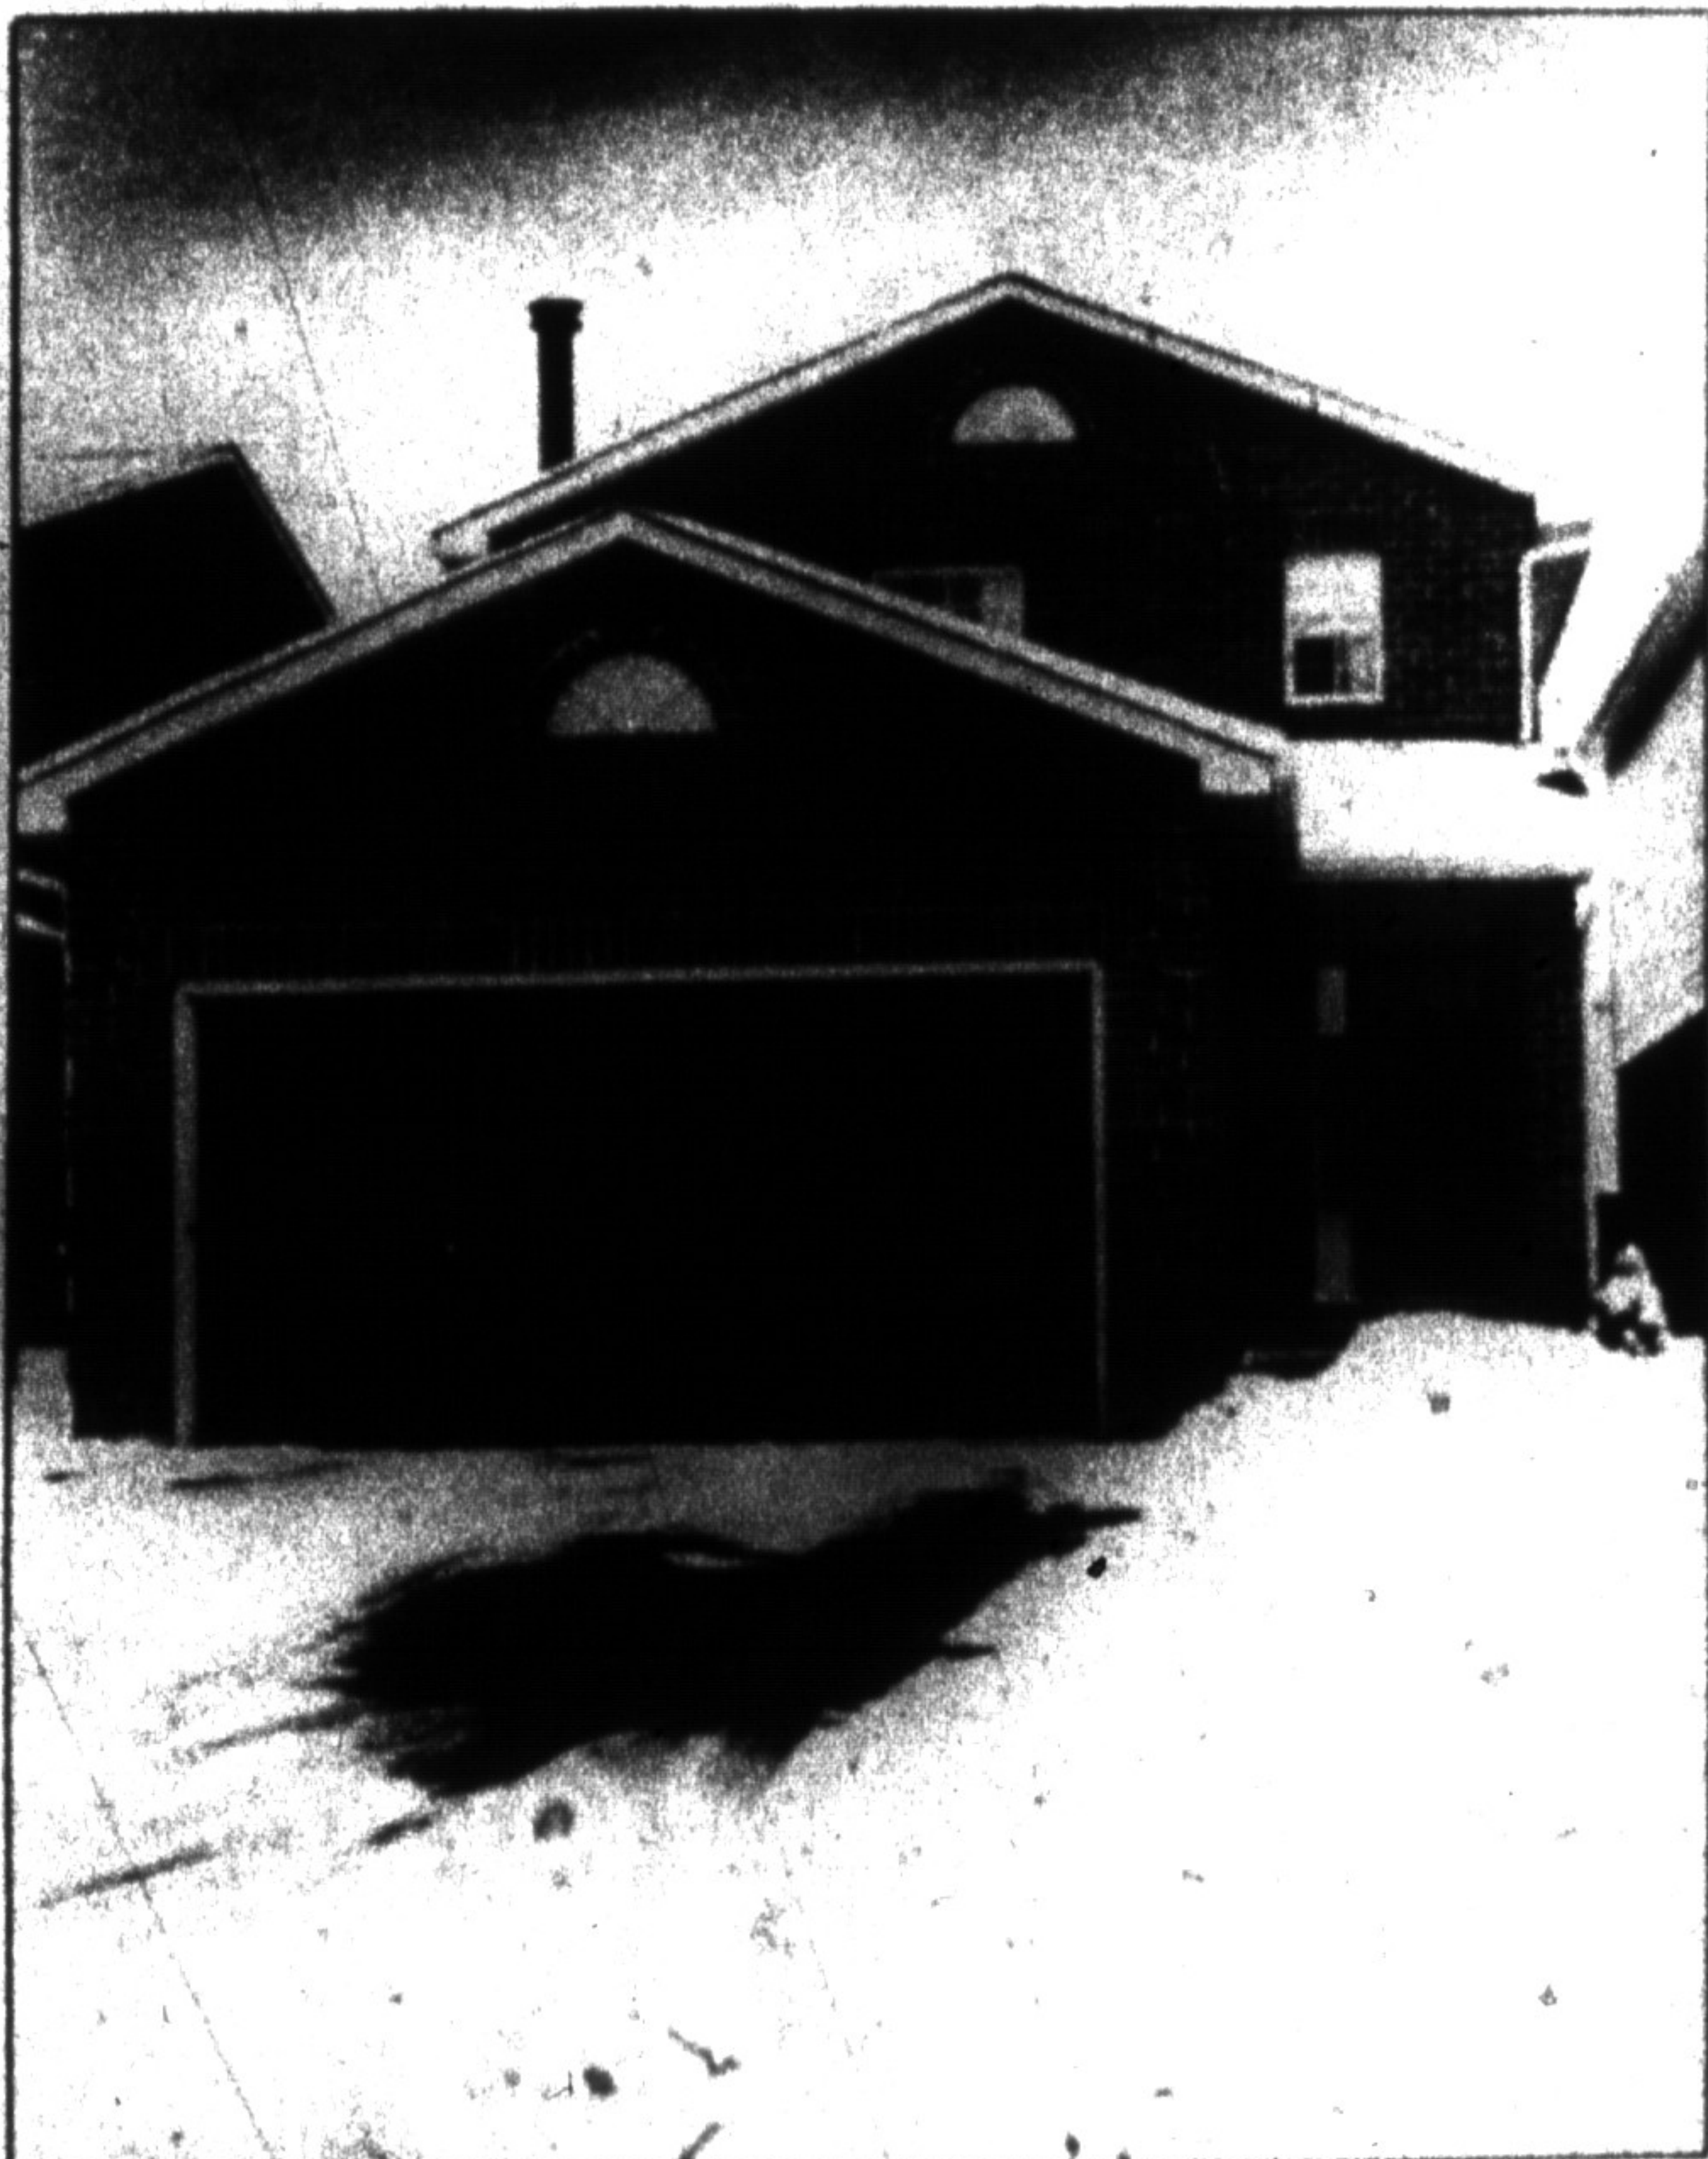

A large foyer with powder room nearby, leads to a cozy family room with brick corner fireplace -- a fine room for family relaxation. More formal occasions can be spent in the huge living room with walk-out to a fenced yard.

Leave kitchen clutter behind when you dine. A well organized kitchen work area with dishwasher is separate from both the formal dining room and the everyday dinette area. Both eating areas have enormous windows to provide bright cheery sunshine.

The main bathroom and three bedrooms can be found on the second storey. All are roomy and the master features a wall-to-wall closet and en suite.

You could move in without work or worry. Everything is immaculate and in superb condition. The neutral decorating and beige-tone carpeting throughout would suit your furnishings perfectly.
