## VOLUNTEERS NEEDED

# Provincial Drinking Water Lead Testing Program

Halton Region is committed to providing residents and businesses with safe, clean drinking water. Halton routinely tests for the presence of lead in the municipal drinking water system. As legislated by the Ministry of Environment, Halton Region must also test for the presence of lead in drinking water at consumers' taps. Halton Region is now looking for residents and businesses to volunteer for this community-wide drinking water sampling program.

- Halton Region is looking for volunteers who live in an older home who suspect they have a lead service connection or lead in their plumbing. (Homes built before 1952 may have lead service connections or internal lead plumbing, and homes built before 1990 may have lead solder connecting copper pipes.)
- Halton staff will require access to your property to collect a sample.
- Testing is free and the results will be shared with you.

To volunteer for the Provincial Drinking Water Lead Testing Program, please contact Halton Region or visit the website at [www.halton.ca/LeadInWater](http://www.halton.ca/LeadInWater) to register online.
