

To the Editor of the Times.

It appears that a Lover of Truth has exhausted all his intellect, and is sighing for another apponent to throw dirt at. When a Lover of Truth resorts to abuse, in the place of argument and uses the trash that he has written, he may well decline to write any more on the subject. Now, Sir, I think that I have discovered the cause of his blunders. In 1851 Prof. Wheatstone invented an optical instrument called the Pseudoscope. This instrument is so ingeniously constructed that it presents every object in a false light, or in a reverse position. Thus in looking at a hollow bowl through the instrument it would appear like a globe and a globe would resemble a bowl. A hat will appear to be turned completely inside out, and a bust viewed in front becomes a deep hollow mask. A Lover of Truth must have gone to a great deal of trouble to procure this instrument. Well, Sir, he takes a look through it, and he says, ah! I thought so; I have always understood that Levi was not a tribe, they were separated entirely to the Priesthood. No one but an ignoramus would make such an assertion. Then he looks again and he cannot find any distinction between Israel and Judah. Now, Sir, he did not dig deep enough or he could not have failed to see that they were divided, and that they are divided up to the present time, but we will not expose a Lover of Truth's want of biblical research further. Any moderately educated Sunday school child could place his finger on gross and careless misstatements of scriptural facts in every paragraph. A Lover of Truth had better attend a Sunday school and take his father along with him, before he discusses the subject any further. When he has common sense himself, it will be time enough for him to take the Bible as a text book.

Yours,
WATCHMAN.

GREAT CALF.—The finest veal calf ever seen in Bowmanville, says the Statesman, was exhibited at M. D. Williams' butchers stall on Saturday the 30th ult. It was bred and fed by Mr. John Camplin of the Township of Whitby. The calf was three months old and sold for twenty-three dollars. Mr. Camplin was offered twenty-five for it in Oshawa, but was previously sold.

J. A. Boyd, Q. C., of Toronto, has been appointed to the Chancellorship of Ontario.

A gentleman writing from Prince Edward Island to the Ottawa Free Press, says there is but one word which will express the feelings of the people of that Province towards the Dominion Government—exasperation—and that no supporter of the present Ministry has a particle of chance of being elected at the next general election.

Great preparations are being made for the reception of the Hon Edward Blake in the Maritime provinces. It is understood that the hon. gentleman will leave Toronto about the first of August and proceed direct to St. Johns, N. B., where he will deliver his first address. He will then speak in Georgetown, Fredericton, Woodstock, Charlotte, Sussex, Westmoreland, &c. He will also visit New Brunswick and Prince Edward Island, speaking in all the principal towns. The tour will last about eight weeks.

Darlington has received a fine assortment of new goods. Please call and inspect them.

The adjourned case of Irish against Bambridge and Robertson for assault came up for hearing on Saturday last. The evidence was not sufficient to secure a conviction. The magistrates dismissed the case. J. E. Farewell, County Attorney, for the plaintiff; N. T. Patterson, of Port Perry, for the defence.

On Saturday Mr. I. Kester showed us an egg from a White Leghorn pullet, not a year old, that measured $7\frac{1}{2}$ by $6\frac{1}{2}$ inches. Can Brantford beat that?

GREAT DISCOVERY.—Two pyramids at Sakkar, in Egypt, enclosing tombs of kings of the fifth dynasty, have been opened. In the the mortuary chapels texts were found, giving accounts of the religious belief of that age. This great discovery entirely upsets the masopic and other theories. Except the discovery of the Rosetta stone 82 years ago no discovery in Egypt equals this in scientific value.

IMPORTANT NOTICE

**R. HULBERT,
MYRTLE.**

Desires to inform his numerous friends and customers that he has now procured the latest and best

SPRING

81.

T. J. HOLLIDAY.

T. J. HOLLIDAY has to hand a large portion of his new Spring Goods. The various departments will be complete in a short time when he will show one of the best country stocks in the county. His facilities for buying are such, that his goods are all bought on the most favorable terms. He is therefore in a position to give as good value as any in the trade, and much better value than many.

He solicits a visit from purchasers, and desires a careful inspection of his goods and prices, feeling confident that no better value can be had then he is able to give. He is anxious to give such value that having bought from him once you will feel it a pleasure and a duty to yourself to buy from him again and again.

His stock comprises Staple and Fancy Dry Goods, choice selected Teas, Sugars, and general Groceries, Boots and Shoes from the most reliable makes in great variety, Crockery, Glassware, Nails, Paints, Oils, &c., &c.

In ordered Clothing he still takes the lead, and continues to turn out those nice well made

NOBBY SUITS

which give such universal satisfaction.

Give him a call, he will be pleased to show you his goods, you will be received with civility and parted with good naturedly whether you buy or not.

T. J. HOLLIDAY.
