all respects solicited before going elsewhere

**A NEW DEPARTURE.**

Said a most estimable lady to us a few  
weeks ago, "I can never forgive my  
parents for one sad neglect in my earlier  
education. They gave me everything  
else but that which I now feel the greatest  
need of, "a musical education." "I can  
never go out any where but I feel my  
ignorance and am ashamed." "I can  
never forgive them." This is strong lan-  
guage but we felt it was justifiable. It is  
not the present but the future of their  
children parents should regard. The  
general and wide-spread knowledge of  
music, the absolute necessity of making  
it a branch of education—its tremendous  
influence for good, morally and intellec-  
tually, over our growing youth—that fam-  
ily being justly regarded as lacking in  
refinement, in moral and soc. of. status,  
as behind the times whose children have  
no knowledge of music—no musical  
training. The impossibility of many  
families purchasing an instrument has  
induced us to make a NEW DEPARTURE so  
as to place a first class instrument in tone,  
music, and durability within the reach of  
all. Hereafter there can be no excuse  
for neglecting the musical training of the  
family. We will, for a reasonable rent  
per month, place a First Class, Bran New  
Instrument in any family circle. The  
monthly rent will be so low as to be  
within the reach of all. For further par-  
ticulars address,

W. RUSE, Big 20,  
Bowmanville.  
C. J. ARTHUR, Box 114,  
Oshawa.

Already a large number of tickets for  
the Athletic Association's Concert, have  
been sold. Those wishing to avoid the  
rush at the door can procure their tickets  
at the Post Office.

On Friday in the Sudan the British  
forces attacked Osman Digma at Trinkat  
and gained a splendid victory: 1000  
rebels killed and Baker Pasha's guns and  
ammunition recaptured. Tokar was also  
retaken. On the news of the victory  
reaching her Majesty she telegraphed  
her thanks to General Graham and the  
brave troops under his command.

No citizen of the United States can  
import a foreign-built ship. In this direc-  
tion the principle of prohibition has been  
carried to the limit of prohibition. As a  
result their foreign shipping trade has  
been protected out of existence. A  
business that in its general ramifications  
gave profitable employment to  
thousands of the people and furnished one  
of the strongest defenses against foreign  
aggression has been utterly thrown away.  
If the people of that country had a chance  
they would be preeminently a seafaring  
people and reap a share of the profits of  
commerce: but they have been "pro-  
tected" off of the high seas.

## BUY THE ROCKFORD QUICK-TRAIN WATCH!

Without doubt the Best in the  
market, its Record Shows a  
Variation of less than a sec.  
a day, then hang up the "Old  
Unreliable" and get a perfect  
Time Keeper.
