Official County Organ.—Largest Circulation of any local paper in Canada.

FRIDAY, MAY 22, 1896.

LOCAL LAONIGS.

Hardwood dining tables, 4 leaves, only \$5, at W. Till's.

Allen's for pure hellebore, Paris green and insect powder.

Mr. Fred. Swan, of York, visited at Mr. Geo. Robson's this week.

Do not fail to read Thos. Slater's advertisement on another page for men.

Mrs. L. Sebert and daughter Katie, Port Perry, were here on Saturday, enroute to Port Hope.

The Town Line and Brooklin foot ball teams played a match on the athletic grounds on Saturday evening, resulting in a victory for the town line. The score at the close of the game stood 2-1.

See Jackson's stock of fancy biscuits this week. Pineapple loaves, pin cake, and all new makes. Full assortment Perrin's butters only 25c. pound, try them. Try our cream loaf only 4c. M. E. Jackson, Brock street.

The members of the Whitby township council were here on Monday morning, that being the day fixed upon to drive over the township roads and make their estimates for repairs. The outlay this year will not be very large unless storms cause damage later on. It was ascertained that the other members of council should take advantage of such trips as this to visit the various households with a view to finding a suitable young woman to share Kevée Calder's joys and sorrows.

The other day near Orillia a young fellow whose father had died a short time ago, and left him a farm, stock and implements decided, like many other foolish young men, that farming was too hard work, and that anyway he was just cut out for business—his town business—forgetting that it takes as much real business to properly conduct a farm as any other calling in the catalogue. He accordingly sold the land, and putting the proceeds in his pocket he bought a revolver and started out to conquer the world, feeling it in his bones that he was a Napoleon of finance. Orillia was the first place struck, and when it became known that a "greeny" with a pocketful of good Canadian money was in town seeking for a channel in which to invest it he was soon surrounded by a bevy of sharks, who held out every seductive offer imaginable to induce him to part with his filthy lucre. Nearly every business man in town suddenly wanted a partner, and invitations out to tea poured in fast and furious to Mr. Greeny. Just about this time a sharper from Sharpville, who had got wind of what was going on in Orillia, telegraphed him to come immediately holding out inducements (on paper) that the verdant youth found it impossible to resist, and he took the first train out of the town. The chances are that ere this time the proceeds of that farm has changed hands.

To Day!!

Ice cream, cakes, boiled ham, at Yates'.

Bargains

100 pairs of ladies' and children's shoes and slippers at 50c. per pair. See the bargains outside the West Side Boot and Shoe Store.

Domino Day here

The Whitby fire brigade is getting up a celebration for Dominion day. They have issued large posters, and will make out a good programme of events for later announcement.

S. A. Notes

Adjutant Miller is under orders to farewell at the barracks here on Sunday, June 7th.

The Hurricaners band to visit Whitby tonight consist of Ensign Hughes in command, who has travelled extensively on behalf of the army throughout Manitoba, Ontario, and the Maritime Provinces, Pecks through the Royal College of Music, London, England, Bob Griffiths late of the O. O. R. band, and Cameron of C. Co. band, Toronto, Tom Bloss, formerly of Whitby, and 4 others. They ought to give a good to cents worth at their variety entertainment.

A Successful Bazar

The ladies of the W. C. T. U. held a most successful bazar in Philp's block. The windows were attractively decorated during the day and the "customers" began to team in shortly after noon. From that time until 10.30 at night the place was crowded like a departmental store. It partook more of the nature of a reception than anything else. The whole line of stock in trade was readily disposed of at fair prices. The visitors were regaled with ice cream, lemonade, candies, smiles, pleasant talk, beauty and amiability. If the ladies should feel inclined to hold bazars or receptions of this sort frequently we believe these so-called bazars would soon become popular social events.

Slightly disguised.

Our well known young townsman, Mr. Jim Walters, is undoubtedly the most experienced bicycle rider in town, and might be said to have taken every possible header so often that he should be able to perform any such movement with perfect agility and safety. But the most dexterous brakesman is frequently wanted, and the least skilful jockey may take the long jump with the greatest safety. Walters likes to take the town riders for a Sunday afternoon jaunt, usually to Port Perry, whither he and four or five others bend their backs on Sunday. They scorched all the way, as is their custom, by which process Jim usually reduces his avoirdupois by the fall of the year until there are only a few dry bones left in his skin. On the occasion of last Sunday's jaunt the brigade had crossed the ridges with safety, and had cut loose at high speed to make the long descent of six miles into Port Perry. As speed increased it was soon found impossible to count the fence corners. The telegraph poles grew to be one together to keep tab on. Fields were passed so swiftly that the dividing fences were lost, and the landscape became a vast prairie only marked by farm houses, which appeared to be planted only a few feet apart. The journals of their cyclometers were becoming heated recording the miles, when Jim Walters' bike bumped against some obstacle. From the speed they were making it is impossible to locate the spot within a mile or so, but it is supposed to have been somewhere between Manchester and Port Perry. The exact geographical data is of little importance, however, as such a thing can happen anywhere. Suffice it to say that those behind him noticed him leave his bike suddenly and make a quick ascent into the air. They gazed in wonder, and felt bound to conclude that he must have had wings concealed about him, with the aid of which he had taken flight to surprise them. They had not taken flight when they noticed that he changed his bearings from midair, and was approaching terra firma rapidly. He alighted with his feet projecting into the air at an angle of about 60 degrees, and commenced a series of the most nimble and imitable somersaults ever witnessed by the eye of a biker, which is saying a good deal, for they practice some astonishing feats in this line. All of a sudden he came to a standstill, or rather a heel-still, and when the others had managed a half-mile halt and come back he was a spectacle to behold. The earth flew up and struck him just at the border of the hair on his forehead, about latitude 75 and longitude something else above his left optic, and had made a course westward 14 degrees south, thence at an angle of 23 degrees south to the upper angle of his left ear, thence by a crescent curve and four angles had passed to his chin, thence north 29 degrees west with a skip to the bridge of his nose, thence north 3 degrees west to the place of beginning. All the subsections of skin was removed and replaced by damaged flesh, suggestive of raw meat. It appeared as if his arrangements for alighting had been imperfect, else his ascent would have proved one of the most brilliant and successful on record. He now wears a big peak on his cap, protecting the whole left side of his face, and refuses to see those who don't want to force into convulsions of laughter.

Allen's for pure essences, vanilla, lemon, etc.

Wm. Candon has procured work in Toronto and went thither last week.

Good morning, have you read Thos. Slater's advertisement for men on another page?

The Toronto cricket club will play an eleven here on Monday next, to send the Whitty club.

A large number from here attended the opening of Prospect Park, at Oshawa on Friday night last.

We regret to learn that our venerable townsman, Mr. Geo. Brown, is suffering from cancer of the tongue.

The Ladies Aid Society of the Methodist tabernacle will hold a garden party at the residence of Mr. Wilson on May 24th, afternoon and evening.

Mr. Arthur Christian has finished his second year at Toronto Law school, and will devote twelve months to office work with Cunniff & Attorney Farewell. Then another year at the law school will complete the course.

If there is anything our bright young men of Whitty banker are doing an evening party at Oshawa. Three of them have notes on Wednesday, and found that all were invited to one house at Oshawa that night. They put on white chokers and black trousers and off they went with expectant hearts to arrive at the house at home, but nobody else was to be seen barring the old folk and a dog. They explained matters after enjoying the fair one's society for a couple of hours, and found that some unknown friend had done the inviting.

This is the time of the year to look out for black knot on plum and cherry trees. It is regarded as an infectious disease, on fruit trees and the Ontario Act of 1893 provides that a fine of not less than \$5 nor more than \$20 may be imposed for every case of neglect. Cut off all knots five or six inches below the affected portion, and paint the wound with turpentine or linseed oil. Burn all prunings and affected branches when they are removed. United action on the part of all fruit-growers is necessary in order to secure the best results from the enforcement of these recommendations.

To the Model Farm

We are requested to announce that the annual excursion per Grand Trunk Railway to the model farm, Guelph, will take place on June 18th, and that very low rates have been secured.

Prof. Raynor's lectures.

The last of the university series of lectures at O. L. C. was given on Friday night, Prof. Raynor, of Victoria University. This lecture was not amusing as some may have anticipated, but was a most thorough and scientific treatment of the subject. He dealt with wit, satire, irony, mirth, etc., showing that humor is a more sublime feeling than any of the others.

Go to Oshawa.

Ride there, walk there, at all events get there, May 25th, to attend the Ontario's demonstration. The bicycle races are the first ever held under C. W. A. permission, and there promises to be a large number of contestants. The two games baseball, and lacrosse match will be very interesting, and the day's programme of sports is a good one.

C. P. R. 1896 Summer Tours.

We are again this season favored with a copy of the Canadian Pacific Railway Summer Tours book for 1896, presented to us by Mr. E. R. Blow, C. P. R. ticket agent here. This beautiful book is a regular cyclopedia for all those who intend taking summer outings, and to assist in deciding where to go. The Canadian Pacific Ry. offers peculiar facilities to intending holiday-makers. Lines lead by the most pleasant ways to the most pleasant places. This book is handsomely illustrated and contains much useful information in interesting shape. Numerous and diversified are the pleasure routes described in its pages. We would say to pleasure seekers secure a copy of "C. P. R. Summer Tours" from Mr. Blow, the book contains all that the most fastidious can desire.

Town Council.

Met Monday night. Coun. Blow read a report from the property committee in favor of paying the following accounts: R. Ash-ton, showing up town hall floor, \$4; S. C. Wilson, evergreen shrubbery, \$25; J. H. Tweedie, maple trees, \$1.30; Thos. Cameron fixing trees, \$1.50; Wm. Dawes, hauling trees to town \$1; D. Ormiston and M. O'Donovan, auditors, \$5 each, for auditing books of late treasurer up to time of his decease. The report passed. Coun. Derrill read a report from the streets committee, recommending payment of the following accounts:—John Bravener teaming, \$4.50; Jno. McCall, work \$15; Wm. Hopper, work, \$15; Geo. Cormack, repairs, \$54.79. The report passed. Coun. Jackson read a report from the committee on fire and water, stating that they have advertised for tenders for sinking a well on Reynolds street near the northern limit of the college grounds, said well to be 22 feet in diameter and 22 feet deep. The understanding is that the corporation is to remove the earth when elevated to the surface. The tenders are as follows: R. Collins, \$77, and \$10 per foot below 22 feet; E. H. Blair, \$20 x 22 square \$2.40 per foot, and \$2.50 below 22 feet; for 22 x 22 feet square, \$4.50 per foot; John Riley and Wm. Ashby, \$80 and \$4 per foot below 22 feet. The committee recommended that the tender of John Riley and Wm. Ashby be accepted. The report was accepted by the committee and had received his offer to pump water for street sprinkling at \$100 for one year or \$80 per year for five years. They recommended that \$100 be paid for this year. The report further stated that the committee had advertised for tenders for tenders for street watering, and had received the following tenders: J. T. McCleary \$150, Wm. Newport \$225 for the year. The tender of J. T. McCleary was accepted. Of this sum of \$180 the town is to pay \$75 from the general tax, and \$114 with \$100 for pumping will be raised by frontage assessment. This is \$45 more than last year. There was a good deal of discussion, but one or two points of the report. For instance the specifications state that the whole of the work of digging the well is to be done under the supervision of the fire and water committee, and specifically that the contractor are to do all the work of the digging and curbing for the contract price, the town to furnish material for the curbing. But a clause is added at the end which states that should anything unforeseen occur and extra labor be rendered necessary the same will be paid for by valuation. Some of the members urged that this saving clause at the end opens the door to possible extras which may amount to a good deal. However, as all the tenders had been compelled to make the specifications a part of their tenders, and as a change would necessitate new tenders and some delay the clause was passed. On the clause as to pumping water for street sprinkling, the committee had decided to give Mr. Harper a contract for five years at \$80 per annum, but some members raised the point that if the business men decided not to sprinkle for a year the \$80 would be forfeited. A contract was made for one year only. Coun. Scott introduced and carried through a by-law appointing Joseph White town treasurer at a salary of \$100 per annum. Reeve King moved, seconded by Coun. Robson, that the court of revision for the year consist of the following members: The mayor, the deputy reeve, and Coun. Scott, Bewell and Smith. Deputy Frigate moved, that the name of the reeve's name be put in instead of the deputy reeve, but got no support, so the original motion passed. On motion of the reeve the property committee was instructed to advertise for tenders for the warehousing of stock at Port Perry, the property belonging to the Mowat Manufacturing company. The council adjourned at 11 o'clock.

Warm Weather Washables.
