Short Notes.

The city of Victoria, B.C., was the scene of a terrible disaster on Tuesday. A street car jumped the track and toppled over into James Bay with over 100 people on board. nearly every one of whom were drowned.

The Uxbridge Times claims that McCormack, the Tory candidate in West Ontario, is merely running to get control of the party patronage, and withdraws its support from him. This is a sad state of affairs, and as Some people are under the impression that things are now shaping we fear the poet J. D. Edgar will win the election.

It takes more money to pay for bicycles To Day!!! in Whitby, Oshawa and Bowmanville than to pay the ordinary running expenses of the towns, Some of these bikes are used to some business advantage, but in nine out of ten cases they are merely for pleasure. Pleasure is a splendid thing, but bicycle Bargains riding is withdrawing \$10,000,000 or \$12,-000,000 from trade in Canada this year. Over \$100,000,000 is invested in bicycles in New York city alone. This bicycle craze has come upon the world just as it was trying to shake off haid times, and to figure out the hundreds of millions that have been sunk in the folly-for it is mostly folly-is impossible, And the end is not yet !

A good many Canadians have risks in the Etna Life Assurance Co., of Hartford, Conn., and will be interested in the great ents. lawsuit recently instituted by the Connecticut state insurance commissioner to force ston's. the managers of that company to transfer \$6,000,000 from the proprietory department of that company to the mutual department The Etna was started on a stock capital of \$150,000, and only \$105,000 of this was paid up. By lobbying bills through the Conneticut state legislature this capital stock has been raised to \$1,750,000 without the stockholders putting in a cent, the money to water the stock being all taken from the funds of the policy holders. Just now the state has an insurance inspector who has courage to tackle the Etna, and Le has commenced proceedings to force the Etna to show up its books and to make it transfer H. G. Roberts and Mr. Guy Dartnell, Tothe \$6,000,000 from the stockholders' to the ronto, and Mr. H. G. Dartnell, Fenelon policyholders' account. It is claimed that Falls, at His Honor Judge Dartnell. the dividends paid on the stock of this company during recent years have amounted to 110 per cent. of the capital really paid up.

The political history of the week has not brought anything new to light. The nomination of candidates continues, and is almost completed. As was the case with the Tories during the last provincial campaign, calls it—blaming us as the cause of such a bad Cheap. rons wherever it would appear that such a course will defeat the Government; while on the other hand many Tory candidates are taking McCarthyite ground where that course commands most votes. The Dominion ministers are going about in couples ex. Newton brings home to us all these and plaining their policy and straightening out party tangles. The opposition leaders are lying quiet for the time being, but will take the straightening out other tremendous charges, feeling that public intelligence can be biased by such unlikely and silly matters; but when it have always voted, but Clarke Wallace is bound they must, and it stands nip and tuck just now. In South Ontario there has never been a quieter campaign. Messrs. Burnett and Smith are going about quietly organizing their workers, and addressing neighborhood meetings. The indications are that some Conservatives will refrain from voting | A free reading room. or else change over on account of the Manitoba school question, while probably as obliged to maintain a free library and readmany Roman Catholics will take the opro- ing room for adults, and if required a night site course, One hears very little about the canvass and the prospects of the parties can-likelihood of having too much education, not be estimated just now, except by the and there is certainly no danger of it. The Gazette has a lot to say every week about Mr. Henderson's salary, because he is one of the proprietors of this journal, and about any of the other teachers who do not subscribe for the Gazette. It takes occasion to find us guilty if the mayor spends a week we printed the official proclamation for the South Ontario election and did not print our names at the bottom, an oversight which was news to us until we went and looked and found it so. He laid out to be safe in perpetrating these villianies, and, of course, goes on with his programme. At the same time we are totally unconcerned as to the silly little things the Gazette trumps up against the CHRONICLE, as the people are not interested in such stuff.

We believe that each town should be down a free public library, and we doubt if it has advanced intellectually since that time, The jealous fear, that those who wanted a library worst would derive most benefit from it, induced the majority to fight down the idea. They were misled into choosing darkness rather than light. The men of the town having thus failed to discharge their duty to the public, a number of ladies of the Women's Christian Temper- TUESDAY, JUNE 2nd, 1896, EXCUTSION ance Union have devoted a great deal of reading room.
