

A Common Affliction

Permanently Cured by Taking
AYER'S Sarsaparilla

A CAB-DRIVER'S STORY.
"I was afflicted for eight years with Salt Rheum. During that time, I tried a great many medicines which were highly recommended, but none gave me relief. I was at last advised to try Ayer's Sarsaparilla, by a friend who told me that I must purchase six bottles, and use them according to directions. I yielded to his persuasion, bought the six bottles, and took the contents of three of these bottles without noting any direct benefit. Before I had finished the fourth bottle, my hands were as

Free from Eruptions
as ever they were. My business, which is that of a cab-driver, requires me to be out in cold and wet weather, often without gloves, and the trouble has never returned."—THOMAS A. JOHNS, Stratford, Ont.

Ayer's Only Sarsaparilla
Admitted at the World's Fair.

Ayer's Pills Cleanse the Bowels.

CURED OF SCIATICA

THE EXPERIENCE OF A BRUCE

CO. FARMER

Suffered so Severely that He Became Almost a Helpless Cripple—Is Again Able to be About his Work as Well as ever.

From the Walkerton Telescope.

During the past few years, the Telescope has published many statements giving the particulars of cures from the use of Dr. Williams' Pink Pills. They were all so well authenticated as to leave no doubt as to their complete truthfulness, but had any doubt remained its last vestige would have been removed by a cure which has recently come under our personal observation. It is the case of Mr. John Allan, a prominent young farmer of the township of Greenock. Mr. Allan is so well known in Walkerton and the vicinity adjoining it, that a brief account of his really remarkable recovery from what seemed an incurable disease would be of interest to our readers. During the early part of the summer of 1905, while working in the bush, Mr.

Allan was seized with what appeared to him to be rheumatic pains in the back and shoulders. At first he regarded it as but a passing attack, and thought that it would disappear in a day or two. On the contrary, however, it was not long before he had to give up work altogether. From the back the pains shifted to his right leg and then where they finally settled and completely helpless did he become. He was unable to do more than walk across the room and then only with the aid of crutches. Of course he consulted the doctors, but none of them seemed able to do him any good. People in speaking of his case, always spoke pityingly, it being generally thought that he had passed from the world of activity, and that he was doomed to live and die a cripple. We are free to confess that this was our own view of the matter, and our surprise, therefore, can be readily imagined when some few weeks ago, we saw this self-same John Allan driving through the town on the top of a large load of grain. Great however, as was our surprise at first, it became still greater when on arriving at the grist mill, he proceeded to jump nimbly from the load, and then with the greatest apparent ease began to unload the heavy bags of grain. Curious to know what it was that had brought this wonderful change, we took the first convenient opportunity to ask him. "Well," said he in reply, "I am as well a man as I ever was, and I attribute my cure to Dr. Williams' Pink Pills, and to nothing else." Mr. Allan then gave us in a very frank manner, the whole story of his sickness, and his cure, the chief points of which we have set forth above. After consulting two physicians and finding no relief, he settled down to the conviction that his case was a hopeless one. He lost confidence in medicines, and when

it was suggested that he should give Pink Pills a trial, he at first absolutely refused. However, his friends persisted and finally he agreed to give them a trial. The effect was beyond his most sanguine expectations, as the Pink Pills have driven away every trace of his pains and he is able to go about his work as usual. As might be expected, Mr. Allan is loud in his praise of Pink Pills, and was quite willing that the facts of his case should be given publicly, hoping that it might catch the eye of someone who was similarly afflicted.

Dr. Williams' Pink Pills are sold only in boxes bearing the firm's trade mark and wrapper, (printed in red ink). Bear in mind that Dr. Williams' Pink Pills are never sold in bulk or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. The public are also cautioned against all other so-called blood builders and nerve tonics, put up in similar form intended to deceive. They are all imitations whose makers hope to reap a pecuniary advantage from the wonderful reputation achieved by Dr. Williams' Pink Pills. Ask your dealer for them.

These Pills are manufactured by the Dr. Williams' Medicine Company Brockville, Ontario, and Schenectady, N. Y., and are sold only in boxes bearing the firm's trade mark and wrapper, at 50 cents a box, or six boxes for \$2.50. They may be had from any dealer, or will be sent by mail on receipt of price.

Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which the pills are sold make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

PICKERING.
We are much pleased to state that G. L. Mayer is able to be about again, he having visited the lake frequently during the past fortnight. He was also at church the past couple of Sundays. We all trust that his present physical condition will continue, and that as the season advances he will grow more and more robust.

George Field successfully passed his second year in medicine at Toronto University. Ed Jones, an old Balsam boy, pass his first year in medicine in the same institution. It is with pleasure we learn that these young men are progressing so nicely, and we hope that their future career may be equally if not more successful than the past.

We are sorry to say that Edmond Wright, of the east end, still remains in a very critical condition and his many friends are becoming somewhat alarmed.

We understand that George O'Leary, V. S., has taken up the study of medicine over in the states. He is now attending college and is in his third year.

A number of villagers have complained to us that their gardens and even trees hanging over the fences or planted opposite their places have been damaged by cattle that are allowed to run upon the roads. There is but one way of remedying this grievance—impound the cattle and collect damages. There is lots of pasture to be procured now and we trust that the pound will not have to be resorted to. We have always held and hold yet that it is selfish for parties who own cattle to pasture them upon the road and streets. For their own accommodation they cause perhaps the householders uneasiness, if not annoyance, and in many cases are a source of much damage.

That bridge over the Gee race still remains in a very dangerous condition. To be sure there is a question as to who should maintain that bridge, and from a reasonable standpoint one can see no reason why the council should be compelled to do so, yet if an accident should occur, which is almost certain if the bridge is allowed to remain long as it is, the township will most assuredly be held responsible. Why not have the affair investigated and if there was any agreement entered into between the council and the party who erected the mill have that agreement complied with, and if not have some arrangement made now, with the owner of the mill. Every time this bridge gets out of repair there is the same dispute as to who should be at the expense of repairing it. Some claim that the mill owner agreed to maintain the bridge for all time if allowed to cross the road with his race, while others claim that the council agreed to bonus the erection of the mill to that extent. Both parties cannot be correct, and we should find out who is in error.

There seems to be considerable doubt as to the meaning of the judgment of the Privy Council with regard to the liquor question, now that judgment has been received in its entirety. The local option part, however, seems to be conceded and the power to pass such by-laws can be given by the Province to the township councils. The Province it would seem has not the power, however, to group the entire Province in one measure. These are the only two clauses that seem to be at all clear, and it has been suggested that the entire finding be referred back to their Lordships for interpretation. There can be no doubt but that the Federal Government is the proper body to approach, if a prohibitory liquor law is wanted. Any other course is but wasted energy.—News.

Rheumatism Cured
Rheumatism is caused by lactic acid in the blood attacking the fibrous tissues of the joints. Keep your blood pure and healthy and you will not have Rheumatism. Hood's Sarsaparilla gives the blood vitality and richness and tones the whole body, neutralizing the acidity of the blood and thus cures rheumatism. Hood's Pills are the best after dinner pills, assist digestion, cure headaches.

Potato Culture.

A large yield tends to reduce the cost of production. While the average production of this country is probably not much over 100 bushels per acre, 500 bushels per acre can be raised. Aim high!

While potatoes will grow in almost all kinds of soil, the best on the farm is none too good. A rich, sandy loam, naturally well drained, is perhaps the best. Manure will benefit almost any soil, but raw manure should not be so applied as to come in direct contact with the tubers.

Give deep and thorough cultivation. If soil is light and season likely to be dry, plant the sets deep, say four or five inches, using potatoes of fair size, uniform and smooth, cutting in halves or quarters; plant in rows three feet apart, dropping seed pieces eight to twelve inches in rows. Harrow frequently until plants are well up, which will kill many weeds and fine the soil. Potatoes require plenty of moisture. Surface cultivation conserves moisture by forming a mulch, thus hindering evaporation. Cultivation should be frequent to keep down weeds, and should always be shallow. Deep cultivation injures the roots of the plants and decreases the yield of tubers. Potatoes should not be ridged up, but cultivated nearly level, except, perhaps, on cold, wet land. The potato ground should be set out in rows long enough to permit the use of a horse-hoe, which can do all the cultivating after the plants are too big for harrowing.

Potatoes should not be grown more than twice in succession on the same land, particularly if any disease gets among them. Potatoes affected with scab should be treated with corrosive sublimate, if it is necessary to use such for seed. For the benefit of new readers we reproduce the directions for treating potatoes, as published in these columns last spring—

Procure an ordinary barrel, and fit into the base a common wooden faucet. Purchase of a druggist two ounces of finely pulverized corrosive sublimate (mercuric bichloride.) Empty this into two gallons of hot water, and allow it to stand over night, or until apparently all dissolved. Place in the barrel thirteen gallons of water, then pour in the two-gallon solution. Allow this solution to stand in the barrel four or five hours, during which time it is several times thoroughly agitated to insure equality of solution before using. Select as fair seed potatoes as possible, wash off all the old dirt, and immerse as many as you can or wish to treat at one time in the solution one hour and a quarter. At the end of that time turn out the solution into another vessel. The same solution may thus be used a number of times if wished. After drying the potatoes may be cut and planted as usual. Plant upon ground that has not previously borne the disease. Remember this chemical is a deadly poison, so exercise becoming caution. The solution should not be put in metallic vessels.

Kootenay

Contains the new ingredient, and is made by an electrical process that will revolutionize medical science throughout the world. Kootenay cures all kinds of Kidney troubles, and is a positive cure for Rheumatism.

Spring

IT CURES DYSPEPSIA, HEADACHE, BILIOUSNESS, And every form of bad blood, from a pimple to the worst scrofulous sore, and we challenge Canada to produce a case of Eczema that Kootenay will not cure.

S. S. FLYNNAN MEDICINE CO., HAMILTON, ONT.

CHEERWOOD.

John Gilchrist has not finished seeding yet, but of course we'll just have to work away and do the best we can.

Our general merchant, John Green, has decided to adopt the early closing rule one night in the week after June 1st.

Quite a number of our people attended the anniversary service of the Whitevale lodge of A. O. F. on Sunday last.

The phonograph concert given in the hall on Tuesday evening by Fred R. Miller was a success, there being quite a large crowd gathered to listen to the wonderful instrument.

May 24th—Queen Victoria.

The present illustrious and venerable ruler of Great Britain was born on the 24th of May, 1819, and was the only child of the Duke of Kent, fourth son of George III. The education of the young princess was directed by her mother and the Duchess of Northumberland. On the death of William IV, her uncle, being then in her eighteenth year, Victoria succeeded to the throne of Great Britain, and was crowned a year later on the 28th of June, 1838. Her marriage to Albert, Prince of Sax-Coburg-Gotha took place on Feb. 10th, 1840, and proved exceptionally happy until ended by the death of the Prince Consort which took place in 1861. The Queen resides chiefly at one of her three castles of Balmoral, in the highlands of Aberdeenshire, Scotland; Osborne, Isle of Wight; and Windsor. In 1876, she assumed the title of Empress of India. Her long reign, which has been dignified in the highest degree, by peace and

The Shoe That Cripples
—Is the shoe that hurts. Bandage your head unevenly and tightly as you do your feet and soon you wouldn't know the difference between the shoe that deforms and the shoe that fits. Here is the shoe for your money—shaped on the most modern foot-fashioned lasts in America, and made from the best imported calf-skin—black or tan—by the famous Goodyear welt process. Eight shapes—many widths—stamped on the sole \$3.00, \$4.00, \$5.00 per pair.

Wood's Phosphodine.—The Great English Remedy.
Is the result of over 35 years treating thousands of cases with all known drugs, until at last we have discovered the true remedy and treatment—a combination that will effect a prompt and permanent cure in all stages of Sexual Debility, Abuse or Excesses, Nervous Weakness, Emissions, Mental Worry, Excessive Use of Opium, Tobacco, or Alcoholic Stimulants, all of which soon lead to Insanity, Consumption and an early grave. Wood's Phosphodine has been used successfully by hundreds of cases that seemed almost hopeless—cases that had been treated by the most talented physicians—cases that were on the verge of despair and insanity—cases that were tottering on the grave—but with the continued and persevering use of Wood's Phosphodine, these cases that had been given up to die, were restored to manly vigor and health—Reader you need not despair—no matter who has given you up as incurable—the remedy is now within your reach, by its use you can be restored to a life of usefulness and happiness. Price, one package, \$1; six packages, \$5; by mail free of postage. One will please, six guaranteed to cure. Pamphlet free to any address.
The Wood Company, Windsor, Ont., Canada.

Wood's Phosphodine is sold by responsible wholesale and retail druggists in the Dominion.

prosperity, places her among the most celebrated rulers of Great Britain. In domestic and private life, the Queen has always been a model to the whole nation, by whom she is therefore justly revered and loved. Her well-spent life is crowned by a happy old age. Surrounded by a large and increasing family of children and grand children, at the head of the most powerful nation in the world, faithfully served both in public and private life by subjects wholly devoted to her interests, it seems as if nothing was lacking to render her earthly happiness complete. The Queen's birthday is celebrated as a public holiday throughout all her vast dominions, and if the destiny of a sovereign could be controlled by the wishes of her loyal subjects, each recurrence of this anniversary would insure to Queen Victoria a long and happy continuance of her wise and beneficent rule.

Protestant and Catholic Clergymen
Are of One Mind Touching the Remedial Character of Dr. Agnew's Catarrhal Powder.

While Protestants and Roman Catholics are wide apart as to certain remedial measures proposed just now, they find common meeting ground in Dr. Agnew's Catarrhal Powder. Take Hamilton alone. This medicine has been used by Presbyterians like the Rev. Mungo Fraser, D.D., and Rev. John Scott, D.D., by Episcopalians as with the Rev. W. H. Wade, and Rev. Chas. E. Whitcombe; by the well known Baptist Rev. G. Anderson; by prominent members of the Methodist church, and by the Rev. Father Hinchey, and many of his parishioners. They all tell the one story of the great good this medicine has done them. The same story has come from the most prominent clergymen in Toronto and elsewhere. It is unlike any other catarrhal remedy, simple, easy, and pleasant to take, and quick in a cure. It will give relief within ten minutes in Hay Fever. Sold only by J. E. Willis, druggist, Whitby.

PINE DALE
Mr. Robert Foster has been very sick for the past week. Several from this neighborhood went on the excursion to Barrie on the 25th inst.

Mr. Ward was in this locality last week and bought a few good horses. The beef syndicate commences its season next week. Mr. Pascoe Edko supplies the first animal. Mr. Jas. Emsie is to be the butcher.

We notice by the election proclamation that the polling, instead of being done at the school house as formerly, is to take place one mile farther south, at the house of Mr. Wm. Patterson.

The arrangements for the S. S. anniversary are about completed. Sermons will be preached on Sunday at 10.30 a.m. and 6.30 p.m. by the Rev. Mr. Addison, of Toronto. At 2.30 a mass-meeting of the children and others will be addressed by Revs. Addison and Stewart. The children of the school will give the entertainment on Monday afternoon, and are being trained for it by Misses Paterson and Pinkham, which is a guarantee that it will be well done. Some ministers will also be present to give addresses. In the evening a concert will be given by the celebrated Prince Albert choir. Come and have a good time. 25 cts. pays for it all.
JOHN C. BARR.

Be Dangerous Ground
You stand on—with a cough or a cold, and your blood impure. Out of just these conditions comes Consumption. In the earlier stages of Consumption, and in all the conditions that lead to it, Doctor Pierce's Golden Medical Discovery is a certain remedy. This scrofulous affection of the lungs, like every other form of Scrofula, can be cured by it. It is a sure, safe, and certain cure for Consumption and Lung Affection, and every disease that can be reached through the blood. It is the only medicine so effective that one may always be in favor. Pamphlet free. Address: Dr. J. C. Rogers, 230 N. 2nd St., Philadelphia, Pa.

VITALITY in MEN Restored

Nervous Debility Weakness Varicose
and all wasting diseases should write to me for advice.
I have been a close student for many years of the subject of weakness in men, the food they eat, and the way they live. I have found that the cause of all these ailments is a deficiency of vitality. I have discovered a simple but most remarkable and successful remedy that completely cures me, and fully enlarged me from a shrunken, stunted condition to natural size and strength. I want every young or old man to know about it. I take a personal interest in each case, and no one need hesitate to write me, as all communications are held strictly confidential. I send the recipe of this remedy absolutely free of cost. Do not put it off. Write me fully at once, you will always bless the day you did so. Address: **WILLIAM S. BATES, Box 2049, Philadelphia, Pa.**

WANTED HELP—Reliable men in eye locally (local or traveling) to introduce new discovery and keep our show cards tacked up on trees, fences and bridges throughout town and country. Steady employment. Commission or salary \$55 per month and expenses and money deposited in any bank when started. For particulars write The World Med. Electric Co., P. O. Box 221, London, Ont., Canada.—moe-30-95.

Cook's Cotton Root Compound.

A recent discovery by an old physician. Successfully used monthly by thousands of Ladies. Is the only perfectly safe and reliable medicine discovered. Beware of unprincipled druggists who offer inferior medicines in place of this. Ask for Cook's Cotton Root Compound, takes no substitutes or imitations \$1 and 6 cents in postage in letter and we will send, sealed, by return mail. Full sealed particulars in plain envelope, to ladies only, 5 stamps. Address: **The Cook Company, Windsor, Ont.**
Sold in Whitby by W. R. Howe, druggist.

DON'T DESPAIR

DR. J. C. ROGERS' GOLDEN MEDICAL DISCOVERY
Cholera and all summer complaints are so quick in their action that the cold hand of death is upon the victims before they are aware that danger is near. If attacked do not delay in getting the proper medicine. Try a dose of Dr. J. C. Rogers' Dysentery Cordial, and you will get immediate relief. It acts with wonderful rapidity and never fails to effect a cure.
Queen's hotel, Wallaceburg, has been bought by T. F. Hinckley for \$10,000.
Food, when it scours on the stomach, becomes unwholesome. It poisons the blood, and both mind and body suffer in consequence. What is needed to restore perfect digestion is a dose or two of Ayer's Pills. They never fail to relieve.
A doctor was seriously hurt by falling from a tree near Hamilton.
Dr. J. C. Rogers' Golden Medical Discovery is a certain cure for Cholera, Dysentery, and all summer complaints. It is a sure, safe, and certain cure for all these ailments. It is a sure, safe, and certain cure for all these ailments. It is a sure, safe, and certain cure for all these ailments.
