BY TAKING

'I was troubled a long time with sick headache. It was usually accompanied with severe pains in the temples, a sense of fullness and tenderness in one eye, a bad taste in my mouth, tongue coated, hands and feet cold, and sickness at the stomach. I tried a good many remedies recommended for this complaint; but it was not until I

The people of Woodstock are doing considerable crowing over the feat of a Leghorn hen, in that town, which is credited with having laid an egg a few days ago measuring 8x81 inches. For depredations of this nature there are very severe penalties, and there is no doubt but that if the guilty parties are found out they will receive a severe lesson, for misdemeanors of various natures are becoming altogether of too common occurrence in our midst.

Complaints are heard from many parts of the town of similar thieving, and if our police succeed in bringing to time the guilty parties, we predict that justice will statement to the above facts before J. However it must have been the back of the rezor which was used, as we have failed to learn of the affair proving fatal, or even inconveniencing the princi pal, and as the doctors and undertakers, one and all, plead ignorance of the affair, we will refrain, upon this occasion, from their son-in-law, Mr. McNealy, V.
