A young lad of twelve years of age, named Calderwood, belonging to Mara township, and who was visiting relatives here, began doing up the town on Monday. The lines he worked on were fruit and boots and shoes. He visited Johnston & Sisson, M. Markham and F. Fobert in the leather line, and honored A. B. Terry and Thos. Anderson for plums, peaches, watermelon and ice cream. The boy had the goods charged up to a couple of well known north ward residents, whose credit was ample. Tuesday evening it was discovered that the youngster had no authority for obtaining the goods, and a relative, getting wind of the matter, called in at the respetive business places the other day and settled the accounts which had been improperly opened up. It is to be hoped that the boy will be duly punished by his parents, as the offence he committed was serious in charac-

Travelers who last winter found themselves snowbound at various points along the line of the Grand Trunk will be glad to learn that the management of the road propose to wrestle with the problem of how to prevent these snow blockades. While last winter was of course an exceptional one in this respect, still there are sections of the road where a comparatively light snowfall suffices to portion of the system during the win- ed. ter months, and is a continued source of trouble and expense to the Grand Trunk officials in their endeavors to Hays and other officials of the Grand loan funds amongst the schools. Trunk on the Midland road, the worst Mr. Hays, and the other officials conthe ever recurring blockades. Mr. E. H. ### ONE HONEST MAN.

Dear Editor — Please inform your readers that it written to confidently I will mail in a sealed letter, particulars of a genuine, honest homa cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weak ness, night losses and weak shrunken parts.— I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of ours known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health.

Colored by the Diamond Dyes.

It is a fact worthy of note that all the best rag carpets, rugs and mats shown at country fairs and exhibitions last year were dyed with the fast and brilliant Diamond Dyes.

This season, we hear that even more extensive work is going on for the comming attumn fairs. The ladies who are experts in the art of carpet, rug and mat making are now buying Diamond Dyes in large quantities to color their mater. helping the unfortunate to regain their health and happiness. I promise you perfect secreey and as I do not wish to expose myself either, please address, simply: P.O. Box 388, Lon.

known to me."

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KINCHELOE.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoris, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

## The Most Economical ...House Warmer

The "Kelsey" Corrugated Warm Air Generator.

Any ordinary Hot Air Furnace will produce heat if you will only supply enough fuel. The "Kelsey" has several special and valuable features but most important is that it will give more heat with less fuel and is the most durable heater made.

The "Kelsey" fire pot being constructed of several upright, tubular, corrugated, cast iron sections (see cut) around which the fire passes and up through which the cold air passes while being heated, and this entire section being wrapped with a heavy steel casing which becomes heated by the fire striking it when passing down outside of myright sections. passing down outside of upright sections towards smoke pipe, it in turn warms the air that passes up between this steel casing and the galvanized iron casing, this explains why the "Kelsey" has three times more radiating surface and warm air capacity than an ordinary Furnace. The "Kelsey" heats every room evenly, wheresoever located, with a nice, mild, healthful warm air that will not injure your furniture.

The "Kelsey" will heat rooms 60 feet The "Kelsey" does not heat your cellar. The "Kelsey" is absolutely gas and dust
